County to check roads

By AL POST
ANP Staff Writer

Wayne County road inspectors have scheduled on-site inspections of various county roadways within the city of Romulus, Russell A. Gronevelt, director of Wayne County Public Services revealed.

Gronevelt informed City Clerk Linda Choate by mail that Robert A. Mahoney, director of county roads, would review road maintenance records and inspect several roads that the city council members claimed were in poor shape.

The roads cited as being in poorest condition at an Aug. 24 council meeting were Wayne and Middlebelt roads, south of Goddard. Council members also decried the condition of other county roads without mentioning them by name.

Council members also expressed a concern about a flashing traffic signal at Wayne and Smith roads. It was reported that the light flashes amber for Wayne Road and red for Smith Road in the evening and on weekends.

Council members are requesting the light be operational 24 hours a day.

Gronevelt said, "After the careful review of each request, Mr. Mahoney will respond by letter."

Bank charges for water bills

Romulus Treasurer James Napiorkowski revealed that Comerica Bank has begun assessing residents a 20-cent charge for processing city water bills.

"However, that charge will not be assessed local residents if they pay the water bill at Romulus City Hall, or if they mail it to City Hall and it does not arrive after the payment deadline," he said.

Fire damages home

A mid-afternoon house fire last Thursday at 6052 Colorado St. severely damaged the interior of the home, owner James Robinson reported Friday.

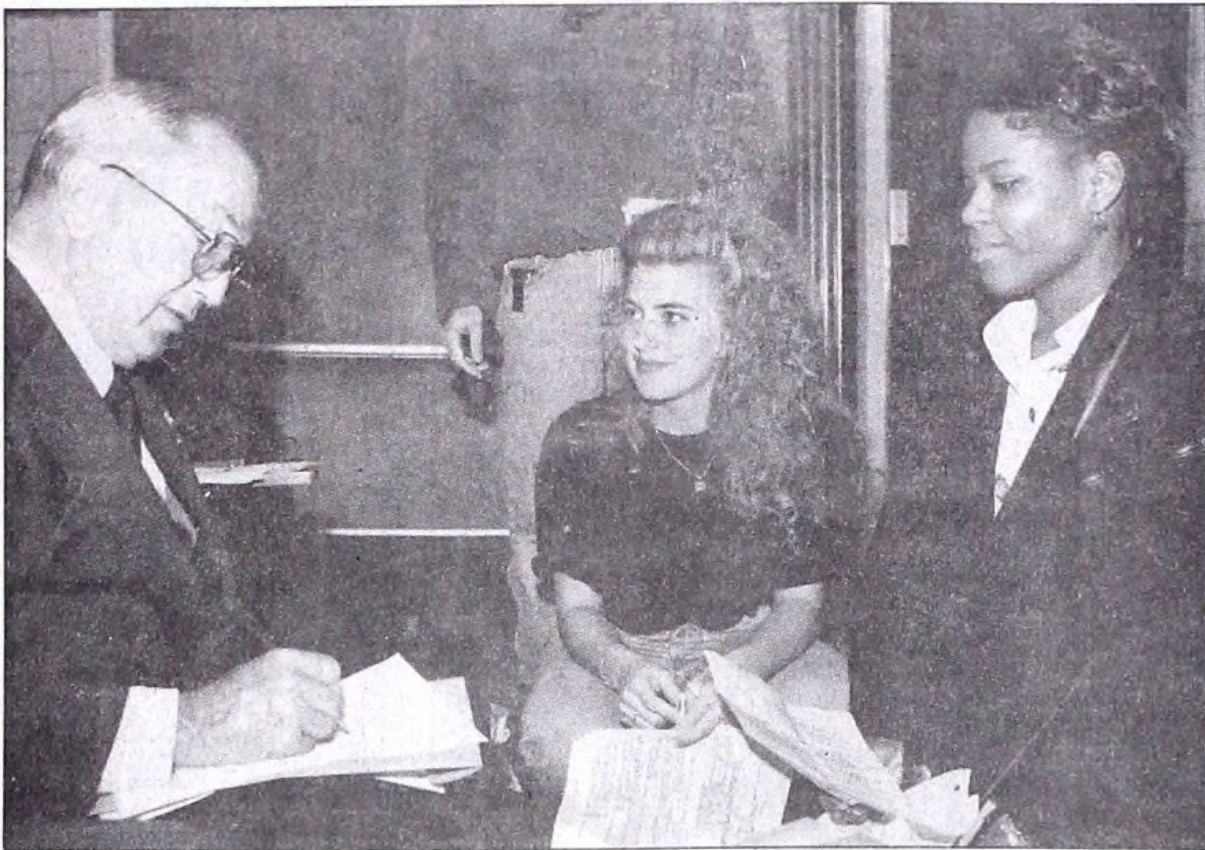

Robinson said his brother, Obadiah, was taking a shower when something fell onto a warm space heater in the bedroom and apparently ignited the fire.

Robinson thinks a neighbor called 9-1-1 to alert firefighters to the fire that charred the interior of the tri-level home that he had lived in for 16 years.

No one was injured, but the family was forced to seek other temporary lodging.

Police said the worst fire damage was to the kitchen and dining room area. Smoke damage was evident in most of the rest of the home.

No fire report was available.

Student aid

Congressman William Ford, left, explains some of the fundamentals of college funding aid programs to students Barbara Markowski and Jocelyn Underwood. The financial aid seminar sponsored by Ford was at Romulus Senior High School Monday evening for area high school seniors who plan continue their educations at advanced institutions next year. Superintendent blasts tax plan

By AL POST
ANP Staff Writer

Charging the long-term impact of the "cut and cap" proposal on the Michigan ballot this November could cost the Romulus School District millions of dollars, Superintendent of Schools Dr. William Bedell is prepared to urge the school board to officially go on record opposing its passage.

Bedell had planned to make the request Monday night, but delayed it until the next board meeting on Oct. 12.

Bedell, along with numerous statewide educational groups and the League of Women Voters, oppose the "cut and cap" referendum measure that they claim would "undermine respect for and confidence in our property tax system because over time, like houses in the same community would be assessed at significantly different values and thus would pay dramatically different amounts of property taxes."

Dr. William Bedell

The "cut and cap" measure is one of Gov. John Engler's key promised tax reduction efforts.

In a sample resolution prepared by Advance Michigan, the coalition opposing the

measure, it is claimed "school districts in Michigan (already) face unprecedented fiscal adversities, which were compounded when the Legislature froze property assessments and caused a dramatic loss of revenue."

According to Bedell, since the Romulus School District is out of formula and derives 90 percent of revenue from local taxpayers, the state would cut that level by 30 percent.

"Those who understand finances claim the state would be \$270 million short in its first year," Bedell said, "and would probably have to make up the difference via a hike in the sales or state income tax."

Bedell continued, "To put it more precisely, currently 85 percent of our tax is made up by industry and commerce. For example, the local General Motors plant could receive a \$1 million tax break, which would have to be made up by cutting local school funding or additional personal taxes."

Airport noise analysis sought

By AL POST
ANP Staff Writer

The first major step forward in alleviating noise from Metro Airport may be in the offing.

Wayne County Commissioner Susan Hubbard, chairman of the special committee on Airport Noise, is pressing Wayne County Executive Ed McNamara to provide the committee with a cost/benefit analysis of the 34 proposed noise rules by Monday.

She said the committee asked for such an analysis in June 1991 and is still waiting for the results.

Hubbard said she is "cautiously optimistic" that McNamara's office will comply with the committee request as a prelude to setting up an ad hoc group that will decide which of the noise rules can be implemented in the near future.

"We realize that airport expansion and noise curtailment don't necessarily go hand in hand," Hubbard said, "but action on behalf of the citizens of Wayne County is drastically needed."

A printed press release issued following the committee meeting Monday, states that if McNamara fails to turn over such a cost/benefit analysis to the committee by next Monday, the county airport noise lawyer will be authorized to conduct the analysis himself.

"The committee cannot vote on the proposed noise rules it wishes to adopt for the Metro Airport Noise Abatement Program until it receives a cost/benefit analysis on each of the proposed rules," Hubbard explained.

"Such an analysis would give the committee a technical review of the economic cost a particular rule would have on the community economy, as

"We realize that airport expansion and noise curtailment don't necessarily go hand in hand."

- Commissioner Susan Hubbard

well as the benefit such a rule would have on an airport noise impacted community. Such an analysis is legally required prior to voting on the rules," Hubbard said.

Hubbard said she realizes some of the more controversial rules the committee wishes to install may be challenged by Northwest or other airlines or the Federal Aviation Administration itself.

She admits one of the most pressing needs today is to remove the outmoded stage two aircraft (DC 9s and 727s) which cause the heaviest noise when taking off at Metro.

Verbal and written communications between the committee and McNamara's office (since last Monday, when it was hoped such an analysis would be delivered) lead Hubbard to believe that such an analysis may be in her hands soon.

The committee plans to meet again on Wednesday, she said, and then it appears that the ad hoc unit will be formed. If that actually happens, Hubbard said, progress could be imminent.

The committee feels all 34 proposed noise rules are important and that is why the cost/benefit analysis is need to set up priorities for the Wayne County area, she said.

Church buys city land

By AL POST
ANP Staff Writer

Seeking to join the city of Romulus in the battle against drug abuse among the young, leaders of the Bethany Apostolic Faith Church successfully obtained approval to purchase 7.3 acres of city-owned property Monday night in preparation for building a new church, recreation complex and community service building.

It is expected that the buildings would not be completed for at least two years.

In its letter to the city property committee, church representatives said, "We take pride in our community and want to become part of the nucleus of serving the people."

Currently building plans include:

- A new church edifice for religious services, counseling, teaching and "whatever it takes to develop a well rounded individual."

- A recreation complex to promote activities that will steer youth away from the current drug culture.

- A cornucopia facility to work in conjunction with other community services to provide food, clothing and temporary shelter.

The church will pay \$7,500 for the land on Beverly Road

and Chamberlain Street.

Elder Reginald L. Williams Sr., church pastor, said if the church wins later approval of the new building planned, the current church, built in the 1970s, will be used for senior citizen activities.

Local officer completes Federal Bureau training

By MARGO DEWEY
ANP Feature Editor

They gathered together in an effort to enhance their professional careers as well as to provide their individual communities with the best service possible.

Recently 249 students graduated from the Federal Bureau of Investigation National Academy (FBINA) program in Quantico, Va. Wayne police Lt. Keith Thomas was among those who successfully completed the course of study.

The average age of the students was 40. The classrooms were filled with 249 enforcement officers representing 50 U.S. states, the District of Columbia, Puerto Rico, six military organizations, three federal civilian organizations and 19 countries throughout the world.

Thomas attended the academy from June 24 to Sept. 4.

"The academy provided federal school and police management," Thomas said. "The program is provided three or four times a year."

The FBINA offers advanced investigative, management and fitness training for officers

"It takes awhile to get into the academy once the request is made because the FBI does a background check on each applicant."

- Keith Thomas

who have shown a proven record as a professional in their individual precincts or agencies.

Enforcement officials interested in attending the academy must submit a request to their department head, according to Thomas.

"I submitted a request to then Public Safety Director Art Morton in August of 1990," Thomas said. "It takes awhile to get into the academy once the request is made because the FBI does a background check on each applicant."

The goal of the program is to improve the quality of police management, not to become an FBI agent, according to Thomas.

"We had a choice of classes like you would at a college," Thomas said. "Everyone had to

take gym class. I took several courses including crisis management, forensics, mass media and police managing."

Thomas had to complete mid-term papers as well as complete a final exam.

"Before I went to the academy, I talked to several individuals who had taken the course before me, so I knew a little of what the program was about," Thomas said. "I had a very nice time and thought it was well worth the trip."

On the average, the officers who attend the FBINA program have at least 16 years of law enforcement experience, and usually return to their agencies to serve in executive level positions. Training is provided by FBI academy instructional staff.

Thomas met several officers from Fiji, South Korea, Australia and Japan. He said the officers from the various countries were surprised at the number of enforcement

agencies in the U.S.

"For example, if the president comes to one of our communities, the secret service is present, the local police are there as well as state police," Thomas said. "In Fiji, however, there is only one police department which covers everything."

Thomas was the first Drug Abuse Resistance Education officer in Wayne. In 1990 he was promoted to sergeant and was in charge of the investigation bureau. In 1991 he was promoted to lieutenant and is now in charge of shift duty.

Thomas is a 1974 Wayne Memorial graduate. He and his wife Jeri have five children.

Keith Thomas

Airport charge may spur land purchase

By AL POST
ANP Staff Writer

Hopes were raised in the Romulus community this week that the \$3 airplane passenger facility charges set to begin Dec. 1 at Metro Airport will also quicken Wayne County action on purchases of commercial, industrial and residential properties that are in the planned airport expansion areas.

Numerous Romulus businesses and homeowners have been alerted in recent years that Wayne County would be purchasing their property for noise elimination and 4th parallel runway construction projects.

"This revenue will not only provide a tremendous resource in our endeavor to reduce the impact of noise on our neighbors."

- Edward H. McNamara

Senior services

switched in area

Significant financial limitations have forced the Romulus Help Center to cancel minor home repair, personal care and homemaker services as of today.

However, the services will continue to be available via other agencies, Sharon Moomaw, senior services program director, said.

The minor home repair services are now available by calling Wayne Metro Community Service Agency, headquartered in Ecorse. Persons needing this service are urged to call 313-722-2442.

Personal care and homemaker services will now be available via The Medical Team located in Southfield. Help can be obtained by calling 313-358-2260.

The Help Center will continue to offer outpatient chemical dependency and mental health services.

Romulus library

leads area

program

More Romulus teenagers participated in the summer 1992 Wayne Oakland Library Federation Computer Pix Program at the Romulus Library than in any other in the cooperative.

Wayne County Librarian Douglas A. Whitaker complimented Kim Potter, Romulus youth and young adult librarian, saying she had "done an outstanding job of promoting the program and following through to see that the reading interests of the participants were met."

Whitaker said "to have Romulus Library lead the entire cooperative is really extraordinary."

Participating at Romulus Library were 348 teens, well above second place Milford with a total of 274.

Potter said she had junior and senior high school students fill out reading interest forms prior to the ending of the last school year.

She then fed the interests into a library unit that in turn provided the students with lists of books that fit their interests.

Youth book circulation increased 40 percent in July over the figures from last year, she said.

New recreation

coordinator named

Although he is only 23, newly-appointed Recreation Department Coordinator Rick Doane has already worked for the recreation department for seven of his 15 years in the city.

Doane succeeds Tina Bertschinger, who resigned the post to become a Westland police officer.

In recent years, Doane has worked within all segments of the city recreation department during the summer and other school break periods.

Romulus marine

now in Japan

Marine Pfc. Aaron J. Darnell, son of Kathleen C. Darnell of Romulus, reported for duty recently with the 3rd Combat Engineer Battalion, 3rd Marine Division in Okinawa, Japan.

A 1989 graduate of Romulus High School, Darnell joined the marines in November 1991.

Used book sale

slated at library

A used book sale is slated at the Romulus Library next Monday, Tuesday and Saturday.

The sale of 1,000 books and magazines is sponsored by the Friends of the Romulus Library and funds obtained from the sale will be used to help with library purchases.

The Monday and Tuesday sale hours will be from noon to 8 p.m. and on Saturday from noon to 5 p.m. Also on Saturday the Friends group will offer a \$1.50 grocery bag special allowing buyers to fill the bags with a selection of books and magazines.

Church seeks growth

By AL POST
ANP Staff Writer

The new Romulus pastoral team of the Rev. James O'Guin and the Rev. Paul White have a vision their congregation at the Gateway Assembly of God Church will triple by the end of the year.

O'Guin, who took over the spiritual reins of the 7-year-old church last January, says he feels strongly his goal is feasible despite the limited months remaining.

"But if we don't make it by Jan. 1, we'll just extend the effort," he said.

O'Guin, a former Ford auto worker, traces his religious activity back to the 1970s. At that time, sporting much longer hair and a black jacket image, O'Guin operated both a coffee house and street ministry in southwest Detroit.

At that time O'Guin said he hunted out those members of society, who he felt were going through a "hopeless syndrome" and invited them to his coffee house program.

O'Guin said he later served

But if we don't make it by Jan. 1 we'll just extend the effort.

- Rev. James O'Guin

with the Carlton Assembly of God Church and the Westland Full Gospel Church, while fulfilling his religious studies at the Berean School.

In January he assumed the pastorate at the local Gateway church, which is located in a 100-year-old building that formerly housed City Hall and a local Grange Hall.

The Gateway church was founded by the Rev. Howell Kelly seven years ago and later was lead by the Revs. Thomas Stafford and Charles Schwartz.

This summer, O'Guin invited White to be his assistant. "I could offer Paul little in monetary reimbursement," he said, "but could offer him a sound foundation for his fu-

ture church teaching and preaching career."

Sunday services are at 11 a.m. and 6:30 p.m. at the church at 36572 Goddard Road followed by a Tuesday service at 6:30 p.m.

In addition the church offers a Boy Scout style program called the Royal Rangers and a "Care Ministry" program on Thursday nights at the church parsonage in Belleville.

As senior pastor, O'Guin feels he still needs to strongly focus on building, strengthening and nourishing his congregation, in addition to seeking congregational growth, he said.

White said as early as his late teens he found "life outside Jesus Christ empty."

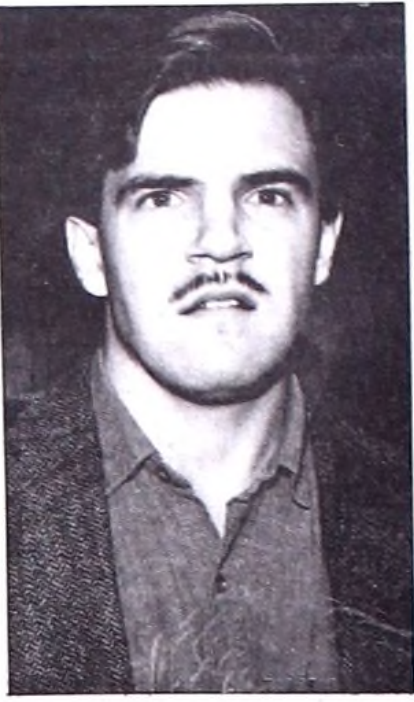

"I was living the fast life and wasn't seeking the Lord in any way at the age of 19, yet the Lord found me just as I was getting to the end of my rope," he said.

"I tried every thing possible that teens feel will bring them happiness and still came up empty," he said.

Then White began attending

James O'Guin

Paul White

a church in his home town, Livonia, and later was influenced by a roommate and switched to the Westland church, where he became acquainted with O'Guin.

White said he was impressed with O'Guin's concept of having Gateway Church serve as a "safe haven and place of rest" for the weary in Ro-

mulus.

Despite being a small church, O'Guin said, the congregation helps support two missionaries, one in Detroit and the other in Africa.

It also will be helping to fund a European mission by former pastor Schwartz later this month to Romania, Germany and Czechoslovakia.

Olympics coming

Helen and Joseph Constante of Romulus, who took part in the Senior Olympics this year in Southgate, are looking forward to the competition next year in Romulus. The Constantes took part in bowling, pinochle and the annual parade of cities. Plans for hosting the Olympics next year will be announced later this week. ANP photo by Ken Garner

Public hearings planned

By AL POST
ANP Staff Writer

Romulus City Council members have scheduled a public hearing for discussion of two sidewalk construction projects at 7 p.m. Oct. 26, just prior to the regular council meeting.

At the urging of Community Development Coordinator Jeffrey M. Martell, council members approved a hearing regarding plans to change the scope of work from construct-

ing sidewalks along the south side of Goddard Road to constructing sidewalks along the north side of Bibbins Street from Wayne Road to Hunt Avenue.

Community Development Director Dennis Oakes said the installation project is not definite and the slated hearing is to discuss financial changes.

However, the homeowners and residents along the Bibbins Street area covered by this potential construction

plan will receive letters from the city seeking their input into the need for such sidewalk installation.

The hearing will also include a request to reprogram the new Bibbins Street sidewalk project with a transfer of \$56,254 from the Romulus Help Center-Minor Home Repair program.

The Romulus Help Center officially ended home repair services today.

Computer purchase approved

By AL POST
ANP Staff Writer

The Romulus Police Department was granted permission Monday night to purchase a new computer system using the Chiefs Inc. as the agent for purchase, installation, conversion and training.

Police Chief Fred N. Dansby in his letter to Mayor Beverly McAnally said, "Our present system has reached near capacity of information storage. Within a year or less we will have no room for new information that must be entered daily to remain up to

date."

The remaining portions of the current system, he wrote, such as terminals, display stations and cabling are going to be used and served by the new computer system.

The IBM AS400 computer is the only up-to-date system that can use the existing equipment thereby lowering the

change-over costs, Dansby said.

In other council action:

- Council members rejected bids for a garden tractor that will be used by the recreation department and approved re-bidding for the equipment.
- A request to let bids for a 60-inch side-mount hydraulic rotary mower was approved.

Transfer of store

ownership denied

By AL POST
ANP Staff Writer

A request to transfer ownership of Billy Joe's Market at 27460 Eureka Road to S and S Super Market Inc. was denied Monday night by members of the Romulus City Council.

The request was tabled at the Aug. 10 council meeting when the petitioner, Hazem Saleh, was instructed to meet again with Romulus Police officials to settle issues concerning a previous license suspension and the source of funding of the purchase.

City Clerk Linda Choate

said Saleh and a co-petitioner, Mounif M. Siklawi, did attend follow-up meetings with city police, but the legal concerns were not answered to the satisfaction of the investigators and the police continued to recommend denial of the transfer.

Neither applicant appeared Monday night, prompting councilman Noah "Pete" Bergeron to concur with the police recommendation for denial. Councilman Randolph Gear supported the motion and council members concurred 6-0.

Councilman William Wadsworth was absent.

School refinancing

may save \$1 million

By AL POST
ANP Staff Writer

Members of the Romulus school board approved a plan to refinance \$11 million of the 1991 bond issue in an effort to save the taxpayers more than \$1 million in finance charges.

Joel Carr, assistant school superintendent for finance and operations, explained the bonds that will be refunded would be those covering the years of 2011 through 2017.

The \$11 million in bonds is part of the \$45 million bond package that was approved by

the voters in 1991 for the remodeling of all local schools and the implementation of the 21st century technology program.

"Our present interest rate for those bonds is 7.55 percent," Carr said, "and we hope to strike a deal for less than 6.5 percent...creating the \$1 million savings to the taxpayers."

The board members approved the request unanimously with a 5-0 vote. Board President Edward Wilkerson and Daniel Bales were absent due to illness.

Romulus marine

assists in search

A Romulus area marine was part of the recent airborne search for a downed Italian cargo plane in a rugged area of land formerly known as Yugoslavia, it was reported this week.

Marine Lance Cpl. Mark E. Summerville, son of Lelanne B. Lundquist of Romulus, is a member of the 26th Marine Expeditionary Unit from Camp Lejeune, N.C. and reportedly was involved in the search and rescue effort in the area near Sarajevo earlier this month.

It is the first time the U.S. Marines have been sent into the area to aid United Nations relief missions.

The Marines were aboard CH-53 Super Stallion helicopters that were being escorted by AH-1W Cobra helicopter

gunships.

The gun ships were forced to return to the USS Iwo Jima when their fuel supplies ran low. The CH-53s used their night vision skills to continue the search, military sources said.

The remaining helicopters drew small arms fire from the ground during the search, but all aircraft were able to take evasive action and return safely.

While the Marines were undergoing debriefing and future planning sessions, word was received that the wreckage had been found and there were no survivors.

Summerville is a 1989 graduate of New Boston Huron High School. He joined the Marine Corps in December 1989.

Commander to visit

John M. Carney, national Veterans of Foreign Wars commander in chief, will visit Romulus on Oct. 14 as part of a state-wide tour.

Carney will be honored at a luncheon at the VFW Hall at 39270 Huron River Drive, from 1:30 to 4 p.m.

He served as a hospital corpsman with the U.S. Navy during the Korean conflict and was awarded the Korean Ser-

vice Medal with two stars.

He was elected to his present position at the 93rd National Convention in Indianapolis this August.

Carney, the first Florida resident elected to the top VFW post, will speak to the group at about 3 p.m. that day.

Post Commander Orrin Prosser said the local post will be marking a 45th anniversary this year.

Fire destroys owner's dream

By MARGO DEWEY
ANP Feature Editor

The Demetriou family plans to rebuild their popular breakfast, lunch and dinner establishment which has been in the Wayne community for more than 29 years.

An early morning fire Sept. 28 caused approximately \$40,000 worth of damage to George's Golden Boy Restaurant, 3632 Elizabeth. The restaurant experienced extensive damage to the kitchen area, according to Wayne Deputy Fire Chief Michael O'Brien.

"The kitchen area was mostly involved in the fire," O'Brien said. "There is a lot of smoke damage throughout the establishment."

Firefighters appeared at the scene 5:16 a.m. The fire

was controlled instantaneously and firefighters left the scene 12:45 p.m.

No injuries occurred in the incident, according to O'Brien. It will take a minimum of two weeks for the cleanup process at the facility, according to estimates.

"The building has been turned over to the owner," O'Brien said.

The night before the fire occurred, everything was in order, according to Nick Demetriou, son of Golden Boy owner George Demetriou.

"We closed at 9 p.m. as usual," Demetriou said. "We don't know what happened."

The Golden Boy will be definitely be missed while the owners are in the process of cleaning and restoring the business.

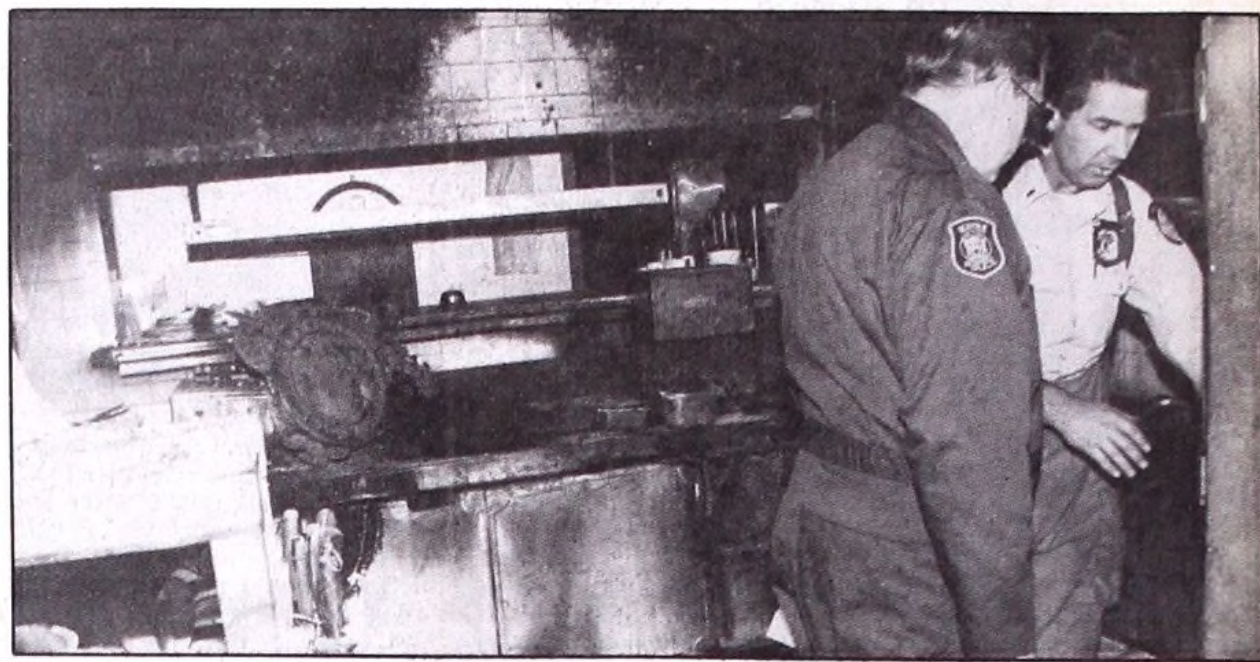

George Demetriou has cultivated a personal fan club of customers which includes business owners, city officials, teachers and residents who frequent the restaurant on a daily or weekly basis.

Demetriou started out working in a restaurant in Cyprus as a waiter, a cook and a dishwasher. His dream was to own a restaurant.

When Demetriou came to Michigan in the early 1950s, he spotted a little shop in Detroit at the corner of West Fort Street. He bought the business and started to serve breakfast, lunch and dinner.

In the late 1950s, Demetriou moved his business to Wayne. He taught his staff to treat each customer with care.

His family joined him in his business, including sons, Andy

The Wayne Fire Department was able to put the Golden Boy fire out instantaneously. Fire officials are continuing an investigation of the incident. ANP photo by Ken Garner

and Nick and daughter Thekla, who with her husband operates the Golden Boy in Be-

lleville. Demetriou's wife, Annie, also worked at the restaurant for many years.

Demetriou said that he plans to rebuild and will reopen as soon as possible.

Westland Police Explorers offer real-life experience to youths

By TIMOTHY KENNEDY
Police Officer

Officials at the Westland Police Department believe that the future of our department and country rests with the youth of today.

The Westland Police Explorer Post 9862 was founded by former Police Chief Michael Frayer in 1988. Explorers are affiliated with the Boy Scouts of America.

The purpose of the program is to provide youths with an opportunity to become familiar with the police department and how it operates. Young men and women get a chance to see first-hand if they would

be interested in pursuing law enforcement as a career. We are proud of the fact that former Westland Explorer John Lazarowicz was recently hired by the Wayne County Sheriff's Department, Explorer John Walker by the Westland Center as a security officer when he was a cadet and Matthew Bobby and David Dinsmore are currently on the Westland Police Department Eligibility List.

The Westland Post has 20 members, young men and women ranging from 15 to 20 years of age. The program is operated by the Explorers themselves, with patrol officers acting as advisers. The Explorer Officers who provide

the leadership are Captain Matthew Bobby, Lt. John Walker and Sgt. Spenser Gogaj.

The program consists of bi-monthly meetings which are on Sunday evenings. Explorers also participate in a ride-along program in which each Explorer rides with an officer on patrol at least once a month. The program has the support of the patrolmen.

Twenty officers have volunteered to take Explorers on patrol. During the ride-alongs, the Explorers are exposed to the different calls to which the police officers are dispatched. For example, family troubles, breaking and entering, property damage crimes and traffic

accidents. The Explorers become familiar with equipment used by the police such as the radio and on-board computer.

Our Explorer post has taken on an academic look. On the second meeting of each month, we have a guest speaker lecture on subjects such as search and seizure, stolen cars, life in the police academy and undercover work.

Range officer, Sgt. Tommy Vaughan, instructed the Explorers in the safe use of the department issued handgun, the 9mm Sig Sauer. Explorers were allowed Explorers to shoot the weapon in the gun range at silhouette targets.

Field trips to the Michigan State Police Crime Lab and Wayne County Morgue have been educational experiences.

The Westland Police Officer's Association sponsored Explorer Tom Westoff's attendance at the State Explorers Camp from June 27 to July 4 at Camp Grayling in Grayling, Michigan. Westoff stated that this was an excellent experience and he was particularly impressed by the discipline of the camp. Westoff is looking forward to attending camp next year and he has recommended that other Westland Explorers also attend.

Our Explorer Post is very civic minded and all members graciously volunteer their time. Each year the Explorers finger-print youngsters at the Westland Center in conjunction with Project Identification. The Explorers also

finger-printed the entire enrollment of St. Mary's School in Wayne. Explorers volunteer to assist the Westland Police Department each year at the Westland Summer Festival, the Police Awards Ceremony and this past year at the 25th Anniversary of the Westland Police Department.

The Explorers are a self-funded program and the group has had two very successful fundraisers this year. The profit of the Tupperware fundraiser provided enough money that the Explorers were able to sponsor a food booth at the Westland Summer Festival. Special appreciation goes to Explorers Carla McCoy and Kelli Deron.

The proceeds of the fundraisers go toward the purchase of uniforms and equipment as well as funding the group ac-

tivities such as our Cedar Point outing in August.

Explorer Post 9862 consists of quality young men and women and it is a privilege to be their advisor.

Westland Police Department Explorers (from left to right) John Walker, Kelli Deron, Carla McCoy, Joe Bobby, Matt Bobby and Skender Gogaj practices their finger-printing skills. ANP photo by Ken Garner

Resident marks 95th birthday

Charles Salvadori of Westland celebrated his 95th birthday with a party at the Westland home of his niece Eunice Salvadori.

Salvadori retired from his occupation as a Teamster in 1961. He moved to Westland to reside with his nephew Gene Salvadori in 1971 following the death of his wife, Ann. The couple was married from 1942 until her death in 1960.

Born Sept. 10, 1897, he is the son of Vincent and Luicia Salvadori who were the parents of 15 children. Salvadori's only living brother who is 86 drove from Cyclone, Pa. along with his wife to attend the birthday celebration.

Also in attendance were 32 nieces and nephews, 71 great nieces and nephews, 53 great-

Charles Salvadori great nieces and nephews and 15 great-great-nieces and nephews. The youngest in attendance was his great-great-niece Kirstie Lynn Taupp, 6 months of age.

CITY OF WESTLAND NOTICE

This is to advise all citizens that the Westland City Council will receive a written transition plan at their October 5, 1992 meeting for modifications needed to facilities and grounds according to ADA regulations. 225 walkers expected to participate Sunday

By JOAN DYER-ZINNER
Belleville City Editor

At 1 p.m. Sunday, approximately 225 walkers from seven area churches will begin their march to halt world hunger.

Participating in the Crop Walk will be children, youth and adults from Trinity Episcopal Church, Faith United Methodist Church, United Methodist Church, United Presbyterian Church and St. Anthony's Catholic Church, all of Belleville, and Community United Methodist Church and St. Aloysius Roman Catholic Church, both of Romulus.

Program sponsors believe the devastating hurricane damage in Florida and Louisiana have raised the awareness of people about the hunger problems in our country, and perhaps will boost the participation in the program.

"This is the only ecumenical service project that the area churches participate in. If there is only one, I'm glad it is something so fundamental as feeding the hungry," said the Rev. John Hagan of Trinity church, project coordinator. "It lifts everyone - walkers, pledgers, whole congregations - to set aside one afternoon a year and say with our feet, 'we

won't allow hunger in the world if we can help it.'"

Participants will walk 10 kilometers. The group will meet at Community church and walk west on Huron River Drive to Main Street in Belleville and then north to Trinity on Belleville Road.

Each walker will obtain pledges for each kilometer walked and the funds will be sent to CROP/Church World Services. One-fourth of the contributions are earmarked for local use. In 1991, 186 walkers from seven area churches collected \$12,000 in the Crop Walk. Checks for more than \$3,000 were distributed to the Belleville Emergency Food Closet, Wayne Metro Soup Kitchen, St. Vincent de Paul (St. Anthony's) and Helping Hand of Romulus.

Michigan has led the nation with more than 120 Crop Walks and blanket appeals and more than \$1.6 million dollars collected in 1991, according to the area coordinator said. People interested in walking or pledging may call Trinity Episcopal Church between 9 a.m. to 1 p.m. before Friday at 699-3361.

The CROP/CWS relief efforts have provided help to disaster victims in southern Florida, Louisiana, Somalia and Nicaragua.

Craft show scheduled

The 16th annual Christmas Arts and Crafts Show, sponsored by the Van Buren Township Parks and Recreation Department, will be staged between 10 a.m. and 5 p.m. Dec. 5 at Wayne County Community College (WCCC) on Haggerty Road.

Sponsors of the annual event said the show will continue to be staged on the WCCC Campus even though regular college classes have been transferred to other sites.

Admission is free and more than 100 crafters are expected to exhibit their wares. Refreshments will be available and there will be drawings for door prizes.

BACK TROUBLE? YOU'RE NOT ALONE!

Years of study and practical application of both physical and x-ray examination, coupled with an in-depth knowledge of the skeletal and nervous systems enables a Doctor of Chiropractic to specialize in spinal and back problems.

Nearly 8 out of 10 people on earth will have back problems!

75 million Americans have back problems with 7 million new victims each year. Of those, 5 million are partly disabled and 2 million are unable to work at all. Some people develop backaches from a sudden blow to the spine as in a car accident or a fall from a ladder. Others may get backaches from lifting incorrectly, straining to lift something too heavy, or even from habitual poor posture. Chiropractic, since its beginning, has developed ways to relieve back pain and correct spinal problems. Don't be one of the 75 million Americans with back related problems! If you or someone you know suspects that a spinal problem is present, please call our office for an appointment.

MICHIGAN DEPARTMENT OF TRANSPORTATION

AVAILABILITY OF SUPPLEMENTAL ENVIRONMENTAL ASSESSMENT FOR THE PROPOSED CONSTRUCTION OF AN INTERCHANGE AT I-94 AND VINING ROAD

All interested citizens are advised that the Michigan Department of Transportation is proposing to construct an interchange on I-94 at Vining Road in Wayne County.

A public hearing concerning this project was held on December 5, 1991. As a result of the public hearing process, a Supplemental Environmental Assessment was developed in response to concerns raised by the U.S. Fish and Wildlife Service, the U.S. Environmental Protection Agency, and the Michigan Department of Natural Resources. Concerns were raised concerning secondary impacts in relationship to the interchange, and the wetland mitigation for the proposed interchange. This Supplemental Environmental Assessment addresses those concerns as well as describing the design alternatives and their potential impacts on the existing social, economic, and natural environments.

Copies of the Supplemental Environmental Assessment for this project may be obtained from the addresses below.

Those disagreeing with the determination set forth in the Supplemental Environmental Assessment are invited to furnish written comments summarizing the specific substantive and factual basis for such opposition. Please address those comments to:

Re-run?

Area residents discount Perot's campaign

By JOAN DYER-ZINNER
Belleville City Editor

Whether or not H. Ross Perot can make a political comeback, voters seem sure that his candidacy could make an impact on the November election.

Perot, who made an early bid to be a presidential candidate, dropped from the race in July. During the past week, Perot seems to be moving toward a bid for the presidency in a three-way race with President George Bush and Democratic challenger Bill Clinton. Perot is scheduled to make a

statement this week.

Retiree William Smith of Westland believes Perot lost his credibility when he dropped out of the race last summer.

"The voters are disappointed with him. His credibility went when he dropped out of the race," Smith said. "I don't think he'll get one out of a million votes if he runs. He could draw some votes away from Bush if he runs."

"Perot won't make much impact. His percentage of votes will be so small that it won't effect the outcome of the elec-

tion," said Don Walker of Westland.

"If Perot re-enters the race, I don't think he'll have much impact. He lost his credibility with his supporters when he dropped from the race," said Beverly Yurchak of Van Buren Township.

Canton residents Louise and Joseph Bonczak differed on their opinions of Perot's impact on the November election.

"I don't think Perot will make a difference if he re-enters the presidential race," said Louise Bonczak.

Joseph Bonczak believes that Perot will take votes away from George Bush and make it more difficult for the incumbent to be re-elected.

"People will vote for whoever they want. It won't make any difference if Perot runs or not," said John Tadrack of Wayne.

"Perot can't win, but he can split the parties," said Westland resident Marge Kolacz. "Perot will make people think."

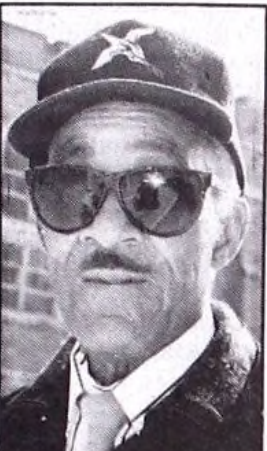

Nellie Thompson of Wayne also believes Perot will garner votes from the Democratic and Republican candidates.

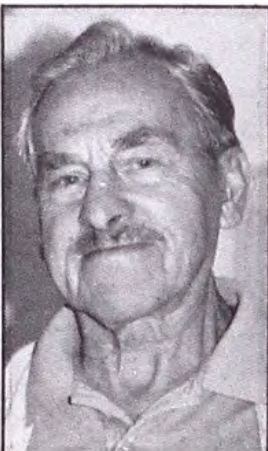

Louise Bonczak:
Canton Township
His candidacy wouldn't make any difference.

Joseph Bonczak:
Canton Township
Perot would take votes away from Bush and make it harder for him to be re-elected.

Don Walker:
Westland
He won't have much effect, because his percentage of supporters is so small.

William Smith:
Westland
If Perot runs, he won't get votes because people are disappointed with him. His credibility is gone.

Marge Kolacz:
Westland
Perot can't win, but he can split the parties. He'll also make people think.

Nellie Thompson:
Wayne
Perot will take away votes from the other candidates.

Legislature approves anti-pornography bill

By AL POST
ANP Staff Writer

A tough new anti-pornography bill that "will pull the rug out from under" area pornography distributors and hike the fine for second pornography offenses to as high as \$5 million has been approved by both the Michigan House and Senate.

It now awaits the signature of Gov. John Engler. Anti-pornography activists said Engler told them earlier he would sign such a measure.

Under the bill material can be ruled "obscene if a reasonable person would find it lacks serious literary, artistic, political or scientific value and if it depicts or describes sexual conduct in a patently offensive way."

A person could be found guilty of "obscenity if he or she, knowing the content and character of the material disseminated obscene material or possessed it with the intent to disseminate."

A first offense (a misdemeanor) would carry up to one year's imprisonment and a \$100,000 fine and a second offense (now a felony) would be punishable with up to two years' imprisonment and a fine from \$50,000 to \$5 million.

Bill Johnson, head of the American Family Association

"
I am gratified with the victory for the people over those who are only protecting their pocketbooks on this issue.
- Bill Johnson

of Michigan, praised action by state voters, who bombarded the office of Speaker of the House Lewis Dodak, with 11th hour phone calls and messages in support of the bill.

The bill that has been languishing most of the summer in Towns and Counties Committee was suddenly approved prior to the pre-election legislative break.

Assistant Wayne County Prosecutor Ray Walsh, who traveled to Lansing several times to speak on behalf of tougher anti-pornography laws, said the latest action will "pull the rug" out from other some of the defenses that pornography distributors have used in the past.

Johnson said he was "gratified with the victory for the people over those who are only protecting their pocketbooks

on this issue."

A second proposal, currently listed as Senate Bill 45, also needs that kind of voter support to make the mere possession of child pornography a violation, Johnson said.

The bill was weakened somewhat when "community standards" were widened to include the entire state of Michigan rather than just a particular community where the alleged offense occurs, but Walsh said effective prosecutors can work within those stipulations.

Other key supporters of the bill were the Knights of Columbus, the Prosecuting Attorneys Association of Michigan and the Detroit Annual Conference of the United Methodist Church.

DREAMS: MORE THAN JUST SUGARPLUMS

by Kenneth Pitts, M.D.

Ever been chased by a pelican? Fallen off a rainbow? Walked around your old neighborhood at night and couldn't find your way home? Maybe in your dreams.

Dreams — those seemingly senseless movies we see in our minds at night — are a phenomenon that's been around for 140 million years. Although we still have a long way to go to really know what dreams are all about, we have learned quite a bit. One thing we know for sure: Our dreams can teach us much about ourselves and our problems.

Dreams uncover painful pasts

In 1905, psychoanalyst Sigmund Freud shared his beliefs that dreams had deep meaning, and were important tools in psychological treatment.

Freud believed that everyone has a place in their minds for buried or "repressed" information, which is not available to us by ordinary methods of recall. The buried information involves painful experiences, memories, and feelings related to disturbing events in our pasts. Although we are not aware of them, these repressed memories are still active in our lives, and influence our current behavior.

Dreams, according to Freud, could help patients uncover the painful material that was causing unhealthy behavior. By confronting these painful experiences, recognizing, understanding, and accepting them, patients gained freedom to handle the conflict in a healthier way.

Freud's notions still apply today

Today, it is widely believed that dreams perform a valuable function. When we dream, we are actually "thinking while asleep" — so we can be solving problems, easing tensions, and working out conflicts even when we're deep in slumber. Happy dreams may even compensate for the bad things happening in our lives.

Don't feel bad if you can't interpret your dreams. Just the fact that you are dreaming means that you're accomplishing something. And if you're one of those people who says, "I don't dream," guess what? Everybody dreams.

So, dream on! Even while you're asleep, you can gain a wealth of knowledge about yourself and others.

Conley, Agnes

Agnes Conley, 81, of Inkster, died Sept. 14, 1992. She was a member of the Eastern Star, Royal Matron of the Ammerth Court No. 12 and was president of the mother's board of People's Community Baptist Church. Survivors include her husband, George; a son, James Conley; two daughters, Elaine McClure and Inez

Lorenze, Richard

Richard Michael (Mike) Lorenze, 45, of Canton Township, died Sept. 16, 1992 at his residence.

He was a 21-year employee of John Sexton and Co.

Survivors include his wife, Michele; a son, Nicholas; his mother, Betty; a brother, Bill, and other family members of Toledo, Ohio.

The funeral was at the Pawlus Funeral Home of Canton. Interment was at the United Memorial Gardens. Memorials may be sent to the Michael Lorenze Scholarship Fund of Plymouth.

Arnold, Robert

Robert Louis Arnold, 60, of Westland, died Sept. 22, 1992. Survivors include his wife Irene; his mother, Dorothy; a son, John (Leslie) Arnold, and three brothers, Martin, David and Ted.

He was predeceased by his father, Walker, and a brother, Tom.

The funeral was at St. Simon and Jude Catholic Church with Father Gerard Bechard officiating. Interment was in Holy Sepulchre Cemetery.

Arrangements were completed by the Uht Funeral Home.

Simmons; a daughter-in-law, Carolyn; a son-in-law, James; a granddaughter, Delores Burns; a sister, Inez Ellis; a niece, Mildred Anderson; 14 grandchildren; 10 great-grandchildren, and seven great-great grandchildren.

The funeral was at Peoples Community Baptist Church with the Rev. John Hearn officiating. Interment was in United Memorial Gardens. Arrangements were completed by the Penn Funeral Home.

Starr, James

James David Starr, 21, of Westland, died Sept. 21, 1992. Survivors include his wife, Lisa; his parents, Lottie, Ronald and Nancy Starr; two brothers, Kenneth (Tina) Lamb and Ron Starr; two sisters, Ann and Margaret Starr; his grandparents, Gillis (Jewel) Ballard; a niece, Emilie, and many aunts and uncles.

The funeral was at the Uht Funeral Home with Pastor Leon Johnson officiating. Interment was in Glenwood Cemetery. Memorials may be sent to the family.

Doty, Juanita

Juanita Doty, 65, of Inkster, died Sept. 24, 1992.

She was a member of Westland American Legion Auxiliary Post 251.

Survivors include her mother, Marie Chesney; two daughters, Carol Bryant and Diana Liles; a sister, Lavon Henson; two brothers, James and Robert Chesney; five grandchildren, and 10 great-grandchildren.

She was predeceased by her husband, Earl A.

The funeral was at the Uht Funeral Home with Pastor Bob McDonald officiating. Interment was in Cadillac Memorial Gardens West.

Boyce, James

James Rigby Boyce, 55, of Wixom, died Sept. 25, 1992 in Howell.

Born in Akron, Ohio on Oct. 14, 1936, Boyce was employed as a painter.

Survivors include his wife, Jeanette; two sons, James R. (Lisa) of Canton Township and Jeffrey Allen; a daughter Jill Marie of Wixom, and a granddaughter, Briana Marie.

The funeral was at St. Thomas A' Becket Catholic Church of Canton with Rev. Father Ernest M. Pocari officiating. Interment was in Parkview Memorial Cemetery.

Arrangements were completed by the Vermeulen Memorial Trust 100 Funeral Home of Westland.

Krum, George

George C. Krum Jr., 59, of Detroit, died Sept. 20, 1992. Survivors include a sister, Mrs. Robert (Eleanor) Aulph of Wayne. Visitation was at the Uht Funeral Home. Cremation rites were accorded.

Leach, Charles

Charles B. (Chuck) Leach Jr., 30, of Westland, died Sept. 23, 1992.

Survivors include his parents, Diana Gianfermi and Charles Sr. and Franki; sisters, Ruth and Theresa Gianfermi, and his grandmother, Rose McConnell.

He was predeceased by his step-father, Frank Gianfermi.

The funeral was at the Uht Funeral Home with Father Bill Carnago. Cremation rites were accorded.

**Haverstick,
Gertrude**

Gertrude Haverstick, 77, of Redford, died Sept. 20, 1992. Survivors include her husband, Harold O.; a son, James (Vivian) of Westland; two sisters, Bertha Hanhardt and Anna McCallum; four grandchildren, and 13 great-grandchildren.

The funeral was at the Uht Funeral Home with Father Thomas Belczak officiating. Interment was in Holy Sepulchre Cemetery.

In Defense of a Little Virginity

a message from Focus on the Family

The federal government has spent almost \$3 billion of our taxes since 1970 to promote contraceptives and "safe sex" among our teenagers. Isn't it time we asked, What have we gotten for our money? These are the facts:

- The federal Centers for Disease Control estimate that there are now 1 million cases of HIV infection nationwide.¹
- 1 in 100 students coming to the University of Texas health center now carries the deadly virus.²
- The rate of heterosexual HIV transmission has increased 44% since September 1989.³
- Sexually transmitted diseases (STDs) infect 3 million teenagers annually.⁴
- 63% of all STD cases occur among persons less than 25 years of age.⁵
- 1 million new cases of pelvic inflammatory disease occur annually.⁶
- 1.3 million new cases of gonorrhea occur annually⁷; strains of gonorrhea have developed that are resistant to penicillin.
- Syphilis is at a 40-year high, with 134,000 new infections per year.⁸
- 500,000 new cases of herpes occur annually⁹; it is estimated that 16.4% of the U.S. population ages 15-74 is infected, totaling more than 25 million Americans — among certain groups, the infection rate is as high as 60%.¹⁰
- 4 million cases of chlamydia occur annually¹¹; 10-30% of 15- to 19-year-olds are infected.¹²
- There are now 24 million cases of human papilloma virus (HPV), with a higher prevalence among teens.¹³

To date, over 20 different and dangerous sexually transmitted diseases are rampant among the young. Add to that the problems associated with promiscuous behavior: infertility, abortions and infected newborns. The cost of this epidemic is staggering, both in human suffering and in expense to society; yet epidemiologists tell us we've only seen the beginning.

Incredibly, the "safe-sex" gurus and condom promoters who got us into this mess are still determining our policy regarding adolescent sexuality. Their ideas have failed, and it is time to rethink their bankrupt policies.

How long has it been since you've heard anyone tell teenagers why it is to their advantage to remain virgins until married? The facts are being withheld from them, with tragic consequences. Unless we come to terms with the sickness that stalks a generation of Americans, teen promiscuity will continue, and millions of kids... thinking they are protected... will suffer for the rest of their lives. Many will die of AIDS.

There is only one safe way to remain healthy in the midst of a sexual revolution. It is to abstain from intercourse until marriage, and then wed and be faithful to an uninfected partner. It is a concept that was widely endorsed in society until the 1960s. Since then, a "better idea" has come along... one that now threatens the entire human family.

Inevitable questions are raised whenever abstinence is proposed. It's time we gave some clear answers:

Why, apart from moral considerations, do you think teenagers should be taught to abstain from sex until marriage?

No other approach to the epidemic of sexually transmitted diseases will work. The so-called "safe-sex" solution is a disaster in the making. Condoms can fail at least 15.7 percent of the time annually in preventing pregnancy.¹⁴ They fail 36.3 percent of the time annually in preventing pregnancy among young, unmarried minority women.¹⁵ In a study of homosexual men, the *British Medical Journal* reported the failure rate due to slippage and breakage to be 26 percent.¹⁶ Given these findings, it is obvious why we have a word for people who rely on condoms as a means of birth control. We call them... "parents."

Remembering that a woman can conceive only one or two days per month, we can only guess how high the failure rate for condoms must be in preventing disease, which can be transmitted 365 days per year! If the devices are not used properly, or if they slip just once, viruses and bacteria are exchanged and the disease process begins. One mistake after 500 "protected" episodes is all it takes to contract a sexually transmitted disease. The damage is done in a single moment when rational thought is overridden by passion.

Those who would depend on so insecure a method must use it properly on every occasion, and even then a high failure rate is brought about by factors beyond their control. The young victim who is told by his elders that this little latex device is "safe" may not know he is risking lifelong pain and even death for so brief a window of pleasure. What a burden to place on an immature mind and body!

Then we must recognize that there are other differences between pregnancy prevention and disease prevention. HIV is 1/25th the width of sperm,¹⁷ and can pass easily through even the smallest gaps in condoms. Researchers studying surgical gloves made out of latex, the same material in condoms, found "channels of 5 microns that penetrated the entire thickness of the glove."¹⁸ HIV measures .1 microns.¹⁹ Given these findings, what rational, informed person would trust his or her very life to such flimsy armor?

This surely explains why not one of 800 sexologists at a conference a few years ago raised a hand when asked if they would trust a thin rubber sheath to protect them during intercourse with a known HIV-infected person.²⁰ Who could blame them? They're not crazy, after all. And yet they're perfectly willing to tell our kids that "safe sex" is within reach and that they can sleep around with impunity.

There is only one way to protect ourselves from the deadly diseases that lie in wait. It is abstinence before marriage, then marriage and mutual fidelity for life to an uninfected partner. Anything less is potentially suicidal.

That position is simply NOT realistic today. It's an unworkable solution: Kids will NOT implement it.

Some will. Some won't. It's still the only answer. But let's talk about an "unworkable solution" of the first order. Since 1970, the federal government has spent nearly \$3 billion to promote contraception and "safe sex." This year alone, 450 million of your tax dollars will go down that drain!²¹ (Compared with less than \$8 million for abstinence programs, which Sen. Teddy Kennedy and company have sought repeatedly to eliminate altogether.) Isn't it time we ask what we've gotten for our money? After 22 years and nearly \$3 billion, some 58 percent of teenage girls under 18 still did not use contraception during their first intercourse.²² Furthermore, teenagers tend to keep having unprotected

intercourse for a full year, on average, before starting any kind of contraception.²³ That is the success ratio of the experts who call abstinence "unrealistic" and "unworkable."

Even if we spent another \$50 billion to promote condom usage, most teenagers would still not use them consistently and properly. The nature of human beings and the passion of the act simply do not lend themselves to a disciplined response in young romantics.

But if you knew a teenager was going to have intercourse, wouldn't you teach him or her about proper condom usage?

No, because that approach has an unintended consequence. The process of recommending condom usage to teenagers inevitably conveys five dangerous ideas: (1) that "safe sex" is achievable; (2) that everybody is doing it; (3) that responsible adults expect them to do it; (4) that it's a good thing; and (5) that their peers know they know these things, breeding promiscuity. Those are very destructive messages to give our kids.

Furthermore, Planned Parenthood's own data show that the number one reason teenagers engage in intercourse is peer pressure.²⁴ Therefore, anything we do to imply that "everybody is doing it" results in more... not fewer... people who give the game a try. Condom distribution programs do not reduce the number of kids exposed to disease... they radically increase it!

Want proof of that fact? Since the federal government began its major contraception program in 1970, unwed pregnancies have increased 87 percent among 15- to 19-year-olds.²⁵ Likewise, abortions among teens rose 67 percent;²⁶ unwed births went up 61 percent.²⁷ And venereal disease has infected a generation of young people. Nice job, sex counselors. Good thinking, senators and congressmen. Nice nap, America.

Having made a blunder that now threatens the human family, one would think the designers would be backtracking and apologizing for their miscalculations. Instead, they continue to lobby Congress and corporate America for more money. Given the misinformation extant on this subject, they'll probably get it.

But if you were a parent and knew that your son or daughter was having sex, wouldn't you rather he or she used a condom?

How much risk is acceptable when you're talking about your teenager's life? One study of married couples in which one partner was infected with HIV found that 17% of the partners using condoms for protection still caught the virus within a year and a half.²⁸ Telling our teens to "reduce their risk" to one in six (17%) is not much better than advocating Russian roulette. Both are fatal, eventually. The difference is that with a gun, death is quicker. Suppose your son or daughter were joining an 18-month skydiving club of six members. If you knew that one of their parachutes would definitely fail, would you recommend that they simply buckle the chutes tighter? Certainly not. You would say, "Please don't jump. Your life is at stake!" How could a loving parent do less?

Kids won't listen to the abstinence message. You're just wasting your breath to try to sell them a notion like that.

It is a popular myth that teenagers are incapable of understanding that it is in their best interest to save themselves until marriage. Almost 65 percent of all high school females under 18 are virgins.²⁹

A few years ago in Lexington, Ky., a youth event was held that featured no sports contest, no rock groups—just an ex-convict named Harold Morris talking about abstinence, among other subjects. The coliseum seated 18,000 people, but 26,000 teenagers showed up! Eventually, more than 2,000 stood outside the packed auditorium and listened over a hastily prepared public address system. Who says kids won't listen to this time-honored message?

Even teens who have been sexually active can choose to stop. This is often called "secondary virginity," a good concept that conveys the idea that kids can start over. One young girl recently wrote Ann Landers to say she wished she had kept her virginity, signing the letter, "Sorry I didn't and wish I could take it back." As responsible adults we need to tell her that even though she can't go back, she can go forward. She can regain her self-respect and protect her health, because it's never too late to start saying "no" to premarital sex.

Even though the safe-sex advocates predominate in educational circles, are there no positive examples of abstinence-based programs for kids?

Thankfully, some excellent programs have been developed. Spokane-based *Teen-Aid* and Chicago's *Southwest Parents Committee* are good examples. So are *Next Generation* in Maryland, *Choices* in California and *Respect Inc.* in Illinois. Other curricula such as *Facing Reality: Sex Respect; Me, My World, My Future; Reasonable Reasons to Wait; Sex, Love & Choices; F.A.C.T.S.* etc., are all abstinence-themed programs to help kids make good sexual decisions.

A good curriculum for inner-city youth is Elaine Bennett's *Best Friends Program*. This successful "mentoring" project helps adolescents in Washington, D.C. graduate from high school and remain abstinent. In five years, not one female has become pregnant while in the *Best Friends Program*!

Establishing and nurturing abstinence ideas with kids, however, can be like spitting into the wind. Not because they won't listen, because most will. But pro-abstinence messages are drowned out in a sea of toxic teen-sex-is-inevitable-use-a-condom propaganda from "safe-sex" professionals.

You place major responsibility on those who have told adolescents that sexual expression is their right as long as they do it "properly." Who else has contributed to the epidemic?

The entertainment industry must certainly share the blame, including television producers. It is interesting in this context that all four networks and the cable television entities are wringing their hands about this terrible epidemic of AIDS. They profess to be very concerned about those who are infected with sexually transmitted diseases, and perhaps they are sincere. However, TV executives and movie moguls have contributed mightily to the existence of this plague. For decades, they have depicted teens and young adults climbing in and out of each other's beds like so many sexual robots. Only the nerds were shown to be chaste, and they were too stupid or ugly to find partners.

Of course, the beautiful young actors in those steamy dramas never faced any consequences for their sexual indulgence. No one ever came down with herpes, or syphilis, or chlamydia, or pelvic inflammatory disease, or infertility, or AIDS, or genital warts, or cervical cancer. No patients were ever told by a physician that there was no cure for their disease or that they would have to deal with the pain for the rest of their lives. No one ever heard that genital cancers associated with the human papilloma virus (HPV) kill more women than AIDS,³⁰ or that strains of gonorrhea are now resistant to penicillin.³¹

No, there was no downside. It all looked like so much fun. But what a price we are paying now for the lies we have been told.

The government has also contributed to this crisis and continues to exacerbate the problem. For example, a current brochure from the federal Centers for Disease Control and the City of New York is entitled, "Teens Have the Right," and is apparently intended to free adolescents from adult authority. Inside are the six declarations that make up a "Teenager's Bill of Rights," as follows:

- I have the right to think for myself.
- I have the right to decide whether to have sex and who[m] to have it with.
- I have the right to use protection when I have sex.
- I have the right to buy and use condoms.
- I have the right to express myself.
- I have the right to ask for help if I need it.

Under this final item (the right to ask for help) is a list of organizations and phone numbers that readers are encouraged to call. The philosophy that governs several of the organizations includes presenting homosexuality as an acceptable life style and vigorous promotion of a teen's right to sexual expression.

Your tax dollars at work! Surely there are other Americans who recognize the danger now threatening a generation of our best and brightest. It is time to speak up for an old-fashioned value called virginity. Now, more than ever, virtue is a necessity.

If you agree with Focus on the Family that it is time for a new approach to adolescent sexuality, tear out this ad and save it. Take it to your next school board meeting. Send it to your congressman or senator. Distribute copies to the PTA. And by all means, share it with your teenagers. Begin to promote abstinence before marriage as the only healthy way to survive this worldwide epidemic.

Please use the coupon below to obtain a valuable booklet on abstinence. There is no charge for it. However, your support is requested for an upcoming TV program for teenagers on this important topic. Your comments are also solicited.

Keep Michigan Beautiful names local winners

By PATRICIA BROWN
ANP News Editor

Several Westland organizations, housing facilities and businesses will be recognized by the Keep Michigan Beautiful Organization for efforts in promoting and practicing the importance of preserving the environment.

"Keep Michigan Beautiful a non-profit organization annually recognizes programs and activities that substantially contribute to environmental improvement, cleanup, beautification, site restoration and historical preservation," said Westland resident Joe Benyo, the current president of KMB.

The group was formed in 1962, according to Benyo.

KMB is known throughout the state for efforts to coordinate state-wide programs to stop littering and promote the importance of outdoor beautification.

According to Benyo, 15 Westland organizations, businesses and local housing developments will receive awards.

"It has just been announced that the Annual Keep Michigan Beautiful Awards Committee for 1992 has chosen 15 individual or group nominees from the City of Westland to receive honors on Oct. 15 and 16 at the KMB Annual Awards

Out of the 125 entries submitted from throughout the State of Michigan, the 15 nominees from Westland garnered more than 19 percent of the total awards.

**- Joe Benyo
KMB president**

Meeting, Benyo said.

"Out of the 125 entries submitted from throughout the State of Michigan, the 15 nominees from Westland garnered more than 19 percent of the total awards," Benyo said. "This is the fourth year in a row that Westland has submitted the most entries and received as many awards from Keep Michigan Beautiful."

The awards meeting will be staged in Grand Rapids, according to Benyo.

Westland winners include:

- The Hall of Fame Award will go to Friends of the Nankin Mill for volunteering to preserve the mill once owned by Henry Ford.
- The Michigan Plaque will be awarded to the Westland

Elderly Housing Corporation for their extensive work in beautifying the area surrounding Thomas Taylor Towers.

- The Michigan Plaque will be awarded to the Westland City Council for the fifth consecutive year. The award was based on citywide beautification projects and Christmas holiday decorating awards.
- The Michigan Plaque was also awarded to the Friends of the Westland Historical Museum for providing consistent programs and fundraisers to make the community more aware of historical and environmental preservation.
- The Distinguished Service Plaque will be awarded to Fifth-grade students who were in Gayle Miller's class at Stottemyer Elementary School last year. They received the plaque for their environmental play *Trees Have Feelings Too*.
- The Distinguished Service Plaque will also be awarded to Boy Scout Troop 860. They will receive the award for their effort to preserve Ganong Cemetery located at Annapolis and Henry Ruff roads.
- The Distinguished Service Plaque will be awarded to *The Westland Community Relations Spirit Newspaper*. The award was given based on the effort writers made to promote the community.
- The Distinguished Service

Plaque will also be awarded to Westland Community Relations for the annual publication of the city calendar.

- A Distinguished Service Plaque will be awarded to Westland Cable WLND Channel 8. The channel was chosen for local programming recognizing the 25th anniversary of the city which included historical programs.
- The Distinguished Service Plaque will also be awarded to Judith Palkowski for her herb garden at the Westland Historical Museum.
- The Distinguished Service Plaque will also be awarded to Westland Parks and Recreation Department for efforts to improve Central City Park which is a 110-acre park which includes a one-mile black top fitness trail, new pavilions and more.
- The Distinguished Service Plaque will also be awarded to Greenwood Villa Senior Towers for the effort to beautify the grounds by the addition of a gazebo.

awarded to *The Associated Newspapers* for promoting the environment in a series of articles that promoted the environment and the history within the six communities serviced by the newspaper.

When you want a Sunday dinner to

GOBBLE, GOBBLE, GOBBLE.

Sometimes you just crave a delicious roast turkey dinner complete with dressing, but lack time and desire to fix it yourself. Don't let that stop you. Come to HAAB's on Sunday and we'll fix you up with the best turkey dinner this side of Thanksgiving.

Adults - \$7.95; Children under 12 - \$4.25; under 5 - free

HAAB'S

NOT the Problem

It starts with a deposit of grease or soap film. The same film that leaves a ring around your tub or sink. In time daily deposits form a black, smelly layer of gunk. As the gunk gets thicker your drains run slower and slower.

Now, without calling a costly roofer service, you can remove this gunk with **Plumb Clean**.

Amazing **Plumb Clean** contains safe, natural bacteria. As they multiply they move from the trap to the sewer or septic. Since they use the gunk for food they literally eat your pipes clean.

Revolutionary **Plumb Clean** is so simple and safe even a child can use it! Only original **Plumb Clean** has this unique formula. Only original **Plumb Clean** makes you promise: Use **Plumb Clean** as directed for 30 days and we guarantee your drains will run like new or your money back!

So cure the slows. Get safe, guaranteed **Plumb Clean** today.

Area dance group promotes Polish heritage, culture

By CRAIG GARRETT
ANP Staff Writer

A special man survives the unspeakable horror of Hitler's concentration camps to teach his little daughter the gentle and traditional art of Polish folklore dancing and music.

"I can remember him dancing the 'polonaise' or walking dance, when I was 4," Susan Marzec said of her father, Walter, a Polish soldier. "Those are the fondest memories of my father. Not once did he speak about Auschwitz. He was a very strong and kind man."

Despite her father's death four years later, Marzec continued to dance Polish folklore on the ethnic westside of Detroit until age 18.

Marzec today continues to promote Polish folk culture in southeastern Michigan through music, song and dance with, "Radomianie," a 20-member performing ensemble she has directed since 1989.

"As I became older I found it was difficult to find adult dance groups," Marzec said. "We saw the need three years ago for a way to preserve Polish folk culture and also to instill ethnic pride in our young adults."

Radomianie, which literally means "People from Radom (Poland)," is sponsored by the Polish National Alliance Centennial Star Lodge based in Plymouth. Several members, including Marzec, are first-generation Americans. One member is from namesake Radom, an industrial city in Poland south of Warsaw known for its quality leather products.

Marzec is the group choreographer and artistic director.

She graduated July 30 from the University of Marie Skłodowska Curie in Lublin, Poland, with 450 graduate hours of Polish culture and dance experience. Marzec perfected her centuries-old art in Lublin with 28 fellow students of Polish descent from around the globe. The students were housed in university dorms for seven weeks each of the last five summers.

"The instructors are Polish dignitaries specializing in songs and customs," she said. "I spent as many as 12 hours a day studying for exams. It was the most thrilling time when my family showed up and surprised me for graduation."

Today, under Marzec's tutelage, the Radomianie repertoire includes a collection of song and dance routines, or suites, from the regions of Rzeszow, Krakow and Lublin, as well as the five national dances of Poland.

Besides regional and national Polish folk dances and songs, Marzec said, a typical Radomianie performance will include background on the origin of costumes worn and information about Polish traditions.

During last a trip last summer to Lublin, Marzec donned a Radomianie T-shirt that managed to stir lively conversation among the locals.

"Polish people were fascinated by what we do and asked if could help celebrate the July Festival next year in Rzeszow," she said. "We're trying to raise funding for that trip now."

The group is staging a major garage sale Saturday and Sunday at the Plymouth Odd-fellows Hall to begin raising

money for the journey overseas. Marzec says expenses are expected to run some \$2,000 for each member.

"Poland is so wonderful," Marzec said. "Evenings are spent with family talking and sharing. Money is not one of the major concerns and television is limited. The atmosphere is like Christmas every day."

Marzec said to join Radomianie, a person must be at least 18, have some dance experience and become a member of the Polish National Alliance. The group is available during Polish Heritage Month or anytime of the year. Telephone 561-4391 for more information

Members of the Polish dance group Radomianie are attempting to collect funds for a trip to Poland through area fundraisers and performances. ANP Special Photo

Police officer struck by drunken driver

By MARGO DEWEY
ANP Feature Editor

A Wayne police officer was struck 2:06 a.m. Sept. 26 by an alleged drunk driver while getting into his police vehicle near east Michigan Avenue and Howe Road.

Wayne police arrested a Wayne woman for driving under the influence of alcohol. She is expected to be arraigned this week, according to Wayne police Lt. Dan Randall.

"Officer Bruce Wolfram was getting back into his police vehicle when he was struck from behind by a Wayne woman driving a Toyota vehicle," Randall said. "She knocked him down to the

ground in the process. He will be off work several days."

Wolfram is recuperating at home from several sprained muscles, according to Randall. The Wayne woman was allegedly driving about 45 mph at the time of the impact.

The Wayne resident was charged with driving under the influence of alcohol. She had no proof of insurance and was not wearing a seatbelt, according to Randall.

If the Wayne woman is found guilty of the drunk driving offense, she could be sentenced to serve up to 90 days in jail for the first-time offense, receive a license suspension of 6 months to 2 years, be fined between \$100 and \$500 and serve up to 45 days of community service.

Magazine editor to open hospital lecture series

Kate Rand Lloyd, editor at large of Working Woman magazine, will kick off the 1992-93 women's lecture series on Oct. 15 at Radisson on the Lake in Ypsilanti.

She will discuss the evolving roles of women and the challenges they face in society and in the workplace. Her topic is titled, "The Glass Ceiling and Other Pains Women Don't Need."

Lloyd joined the magazine in 1977 and since that time the circulation has grown from 97,000 to more than 900,000.

In 1991, Lloyd received the President's Award for excep-

tional merit in media from the National Women's Political Caucus and joined the Distinguished Women honor list of Northwood Institute. She is also on the advisory boards of the National Women's Political Caucus and the Institute for Women and Work.

The dinner-lecture program sponsored by Saline Community Hospital. Registration begins at 6 p.m. with dinner at 6:30 p.m. and the presentation at 7:30 p.m.

Reservations for the program, which cost \$21 per person, can be made by calling Gwen at 429-1555.

Prill," Colligan said.

Klimaszewski took pop and various food items from the resident on Newberry, according to police. Colligan said Wayne police officers were able to apprehend the suspect due to the accurate description provided by the victim.

"She provided a very detailed description," Colligan said. "It just shows again how the community can work together to prevent these kinds of activities."

Klimaszewski was arraigned Sept. 23 and a \$15,000 bond was set.

Garage thief faces charges

By MARGO DEWEY
ANP Feature Editor

A Sept. 30 court examination has been scheduled for a Wayne man who allegedly entered a garage on Newberry Street 8 a.m. Sept. 21.

Andrew S. Klimaszewski was charged by the Wayne Police Department with breaking and entering. Klimaszewski is an escapee from the Maxey Youth Training facility, according to Wayne Police Chief John Colligan.

"He fled the scene, and was apprehended by officers Randy Urbaneczek and Michael

Seniors set sights on Atlantic City Boardwalk casinos

By JOAN DYER-ZINNER
Belleville City Editor

If you don't have a week or even a weekend free for travel, a day trip can whisk you far away from the daily routine and provide a revitalizing getaway.

In response to the growing demand for one-day fun trips, Hamilton, Miller, Hudson & Fayne Travel Corp. has initiated an Atlantic City charter package via Leisure Air from Detroit.

Among the 168 passengers on the inaugural flight from Metro Airport last Friday were 36 Westland residents traveling with their Friendship Center group. Also on board was Hap Pareti, president of Worldwide Airline Services, Inc., who assisted the flight at-

tendants by passing out the morning snack of muffins and Danish pastries.

The Atlantic City flight departs at 8 a.m. and arrives in Atlantic City at 9:30 p.m., allowing a full day of sightseeing, shopping and casino gambling before the return flight leaves at 10:50 p.m.

Upon arrival at Atlantic City Airport, travelers are directed to buses and transported to Caesars where they receive vouchers for meals and coins, which can then be redeemed inside the casino.

Those who want to take advantage of the bonuses and cash prizes offered by the Emperors Club can apply for a Qualifier Card. Casino employees can explain the use of the card in the slot machines and at the tables to first-time

visitors.

For those who haven't visited Atlantic City before, a stroll on the famous Boardwalk and a view of the ocean are musts. Shoppers will probably find their best selections in the shops located in the hotels/casinos, but souvenir shops abound along the Boardwalk and in the Ocean One mall.

Of course, gambling is the big draw to Atlantic City and a variety of casinos are located in the downtown area.

Decorated in the architectural style of ancient Rome and abounding in Italian Carrera marble statuary, the \$400-million Caesars hotel/casino features gaming from blackjack and slots to roulette and baccarat. The casino boasts 97 table games and 1,805 slot machines. Visitors to the gaming machines can wager a mere quarter up to a \$100 token, and the high rollers - cloistered in an area apart from the crowds

- have been known to risk \$500 or more on a single turn of the wheel or roll of the dice.

Caesars also features a dozen dining areas. Food and beverage vouchers can be used in six of the casual restaurants. Gourmet dining is featured in the Oriental Palace, LaPosh, the Imperial Steakhouse and two other fine dining rooms.

Visitors also may want to check out the facilities at Bally's Park Place, Trump's Castle and the ostentatious Taj Mahal. Gambling tables and machines are similar at the casinos but the ambience is unique in each.

Although one suspects that the casinos hopes to cater to the big betters, those who play the 25- and 50-cent slot machines seem to enjoy the game as much - or more - as anyone else in the casinos.

The secret of enjoying oneself in Atlantic City, according to Westland residents Joyce Johnson and Arlene Parker is

to wear comfortable walking shoes for sightseeing. Ann Sullivan and Phyllis Keatts, also both from Westland, advise visitor to bring what they can afford to gamble and then not worry about it.

Although only a few of the 36 Westland residents admitted to big winnings on their one-day trip, all agreed that it was the prospect of fun that brought them on the excursion, not the hope of riches.

If your visit includes a few evening hours, Caesars Circus Maximus features such stars as Ray Charles, Barry Manilow, Ann-Margaret, Wynonna Judd, Buddy Hackett, Neil Sedaka and Rita Rudner. Alan King will appear on Oct. 16-18, Natalie Cole will sing on Nov. 13-15 and David Copperfield is slated to perform his illusions on Nov. 27-29.

For those who don't think they can enjoy everything they want to see and do in one day, there are overnight fun trips available.

What tips do you have for Atlantic City visitors?

					
Ruby Johnson: Westland	Phyllis Keatts: Westland	Carmela Sultana: Westland	Leonard Dettloff: Westland	Joyce Johnson: Westland	Arlene Parker: Westland
Find a good machine and stick with it.	Bring what you can afford, and don't worry.	Go for fun, and hope to win.	Keep it green! Put money in and watch it grow.	Bring good walking shoes.	Bring a lot of money.

NEW ARRIVALS

Alyssa Ley

Thom and Shelby Ley of Ypsilanti became the parents of a daughter, Alyssa Anne Nicole Ley, on Aug. 21, 1992 in St. Joseph Hospital of Ann Arbor.

The new arrival weighed 7 pounds, 7 ounces and measured 20 and 3/4 inches in length.

She joins a brother, Christopher Ryan Ley, 3, and a step-brother, Joshua Lucas, 4, at home.

Grandparents of the infant include Charles and Jean Cundiff of Belleville and Robert and Sandra Ley of Canton Township.

Her great-grandparents are Mildred and Russell Westfall of Westland and Ann Newberry of Florida.

They meet in communities all over the world to learn about one another's lifestyles. They are between 11 and 80 years old representing all professions.

They are part of an organization called the Friendship Force, a private, non-profit group, which creates friends from country to country, according to Wayne resident Myrma Payton who is a member of Friendship Force.

"I have looked for something like this for years," Payton said. "It's a fabulous organization. You meet people from other countries and you really learn about how they live on a day-to-day basis."

Friendship Force works by having ambassadors from each country exchange visits. If a group from Russia comes to Wayne, then one day the ambassadors from Wayne will travel to the homes of the Russians, according to Payton.

"You can live with them and learn their culture and their

Several Russian Friendship Force members visited the Metropolitan area in January.

country," Payton said. "When they come here, they stay with the members of the Friendship Force in their homes. It's a very experience."

Since 1977, more than 90,000 ambassadors have embarked on exchanges of goodwill. Friendship Force was founded by Wayne Smith in 1977. It was announced March 17, 1977 by former President Jimmy Carter at a White House gathering of state governors.

Carter asked the governors to return to their states and identify a volunteer leader to serve as state director and to organize citizen exchanges.

In the first few years of the program, Friendship Force officials assigned exchange groups of 150 to more than 400 ambassadors to travel to the partner city.

The motto for the Friendship Force is, "As a member of the Friendship Force, I recognize that I can make a difference. I recognize that I have a mission. That mission is to be a friend to the people of the world. As I embark upon this adventure, I know that others will be watching me. I know that through my example to my own fellow citizens and the people of other nations, the cause of friendship, love and peace will be furthered."

Anyone interested in becoming a member of the Friendship Force can write to: Friendship Force of Greater Detroit, P.O. Box 7082, Sterling Heights, Mich. 48311.

Applicants are screened by local Friendship Force committees to ensure that only those who are deeply motivated will become ambassadors and hosts.

Each ambassador will pay an induction fee which covers the entire exchange experience, including international transportation and a week-long home hosting.

The exchange involves a one-week intercultural learning and sharing experience. Goodwill ambassadors travel in groups of 20 to 80 to and from an assigned host country.

Old North Village

New antiques mall to open soon

They are traveling around the U.S. gathering the most unique top quality antiques in an effort to create an antique mini-mall which would resemble Trapper's Alley.

Wayne businesswoman Darnell Cotham, owner of Advanced Embroidery, and her assistant former Westland Police Chief Michael Frayer decided to create an establishment where residents can enjoy conversation with a friend while shopping for their favorite collectibles.

"We're going to call it Old North Village," Cotham said. "It will be situated between my sales office and the factory here on Wayne Road. I'm trying to create a miniature Trapper's Alley, the way it used to look when it was first built with books hanging and pastries provided with cappuccino."

Old North Village will be located at 2909 Wayne Road. Cotham said she and Frayer came up with the name because she likes things that are old and he likes villages.

"We're going to try and keep the mini-mall open Tuesdays through Sundays," Cotham said. "It all depends on the

"We want to provide the kind of collectibles that are quality."

**- Michael Frayer
Police Chief**

Darnell Cotham

customer's response. We will be offering a wide variety of antiques, but they will only be quality products.

"This is not a flea market. There will be some crafts. We want to be a complement to Sanders Antiques on Michigan Avenue here in Wayne. We want to be able to recommend customers go to Sanders and vice-a-versa."

There will be 15 exhibitors altogether. Cotham said she has had a tremendous response already from residents and individuals interested in participating in her antique venture.

"I've always liked antiques, but Mike is the one who knows more about the business," Cotham said.

Frayer said he has been talking to several individuals

who would like to put their antiques in the Old North Village.

"Anyone interested can talk to us in advance," Frayer said. "We want to provide the kind of collectibles that are quality. We're going to be traveling all over to find antiques we believe people in this area will really enjoy."

The Old North Village is expected to open at the end of October. Anyone interested in becoming a part of the mini-mall or would just like to find out more about antiques can contact Cotham or Frayer at 722-1470.

Hospital plans Red October Run fundraiser next week

By MARGO DEWEY
ANP Feature Editor

It was a big hit last year, and Annapolis Hospital officials are making sure the event is even more exciting this year.

The Annapolis Hospital Red October Run is scheduled for Oct. 3 on the Annapolis grounds, 33155 Annapolis Road. A 2-mile Neo-Walk will be featured as well as the second annual 8-kilometer run, according to Cynthia Cook, representative of Occupational Health Services at Annapolis.

"The run is definitely bigger this year," Cook said. "We had an outstanding response last

year. This year we've exceeded last year's participants already."

Last year more than 260 runners from various states in Michigan participated. Nationally renowned runner Ella Willis from Detroit was the first female to finish with a time of 28:43.

The Red October Run race course is paved, flat and certified, according to Cook. It features two aid stations, splits at each mile, and includes traffic control and marshals stationed throughout the course.

"We will be giving away sweatshirts this year as well as hot dogs," Cook said. "We will also have a raffle."

Cider, doughnuts and free health education literature will also be distributed. The first 50 children under 15 years old and the first 50 adults more than 15 years old will receive the Earlybird Special-first edition Red October Run t-shirts, according to Cook.

Special awards will be presented to the overall male and female runners, the top three male and female walkers and the top three runners in each age group.

A special prize raffle will be staged for all walkers and runners with prizes donated by the Detroit Lions, Pistons, Tigers and Red Wings. Prizes include Runner's World magazine

and Leo's Jewelry gifts.

Cost for the race on registration day is \$14 for the run and \$10 for the Neo-Walk. Proceeds will benefit the Annapolis Hospital Neo-natal Intensive Care unit.

Both the run and walk will begin at 10 a.m. Registration and packet pick-up begins at 8:30 a.m. For more information call 467-2530.

Wayne police officers are asking participants to follow the following route: West on Annapolis to Howe Road, south on Howe Road to Van Born Road, east on Van Born to Venoy Road, north on Venoy Road to Forest Street, west on Forest Street to Biddle Street,

south on Biddle to Winslow Street, east on Winslow to Carnegie Street, north on Carnegie to Forest Street, east on Forest to Howe Road, south on Howe Road to Annapolis and east on Annapolis to the finish line.

"The run is expected to be completed at approximately 11:30 a.m.," Wayne police Lt. Dan Randall said. "During the time that the run is being conducted, we ask that residents enter or leave the neighborhoods by using certain access points."

The access points are:

- Franklin, Gerald, Evans and Dean-Use Venoy Road.
- Gertrude, Eastlawn,

Myron, Adams Circle and Clinton-Use Forest Avenue.

- Annapolis between Eastlawn and Howe-Use Howe Road.
- Forest between Venoy and Howe-Use Howe or Venoy.
- Columbus, Carnegie, Edmund and Fourth Street-Use Forest Street.
- Forest between Howe and Second-Use Second or Howe.
- Third, Second, First, Chamberlain, Washington and Biddle-Use Clinton Street.
- Annapolis between Howe and Wayne-Use Annapolis Street.
- Winslow between Biddle and Carnegie-Use Annapolis Street.

GENERAL CINEMA'S CANTON 6

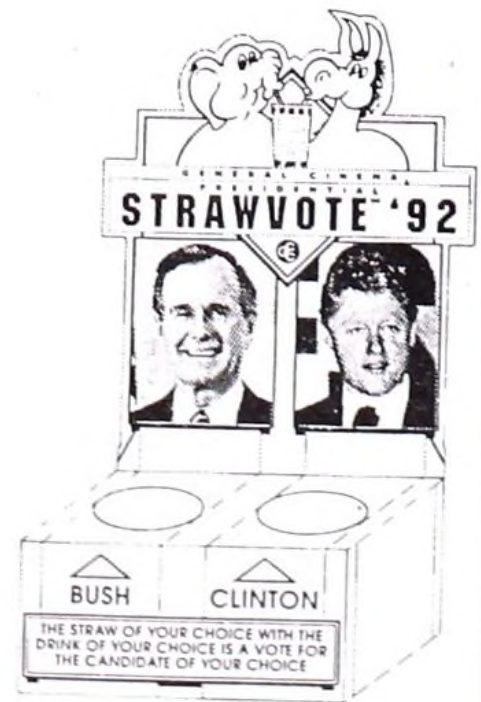

PRESIDENTIAL STRAW VOTE

1992

In September, General Cinema Corp. began conducting the 7th edition of their award winning Straw Vote promotion. The Straw Vote is conducted by concession attendants, who give out drinking straws tied to the purchaser's party preference in the upcoming Presidential election. Though intended for fun, GCC's straw vote has successfully predicted the last six Presidents and except where an independent candidate significantly affected the final numbers, GCC's results have been within a few percentage points of the official final tally.

As of Sept. 17, 1992, 948,740 people have cast their Straw Vote.

Sports

'This is our best' Romulus gives No. 1-state ranked Adrian fight to the finish

By TOM MOORADIAN
ANP Staff Writer

Romulus was less than one minute away from posting the biggest upset and greatest football victory of the past quarter of a century.

Coach Dan Henry and the unheralded Eagles led the No.1 Class AA state-ranked team, Adrian, until the final seconds of the game when a controversial punt and a last-second touchdown helped Adrian avert the upset and the embarrassment of losing to an unheralded team.

"I said before the game we'd

know just how much our team has matured. Well, they have. They played a superb game - their best ever," said Henry after the heartbreaking, last-second 21-17 setback at the hands of undefeated Adrian.

"I also hope that this game will be a springboard for us for the rest of the season."

The game, played before a partisan Adrian homecoming crowd, drew 8,000 spectators to watch the two previously undefeated and former South Central Conference rivals battle.

Two penalties in a controversy-filled final minute

"
I said before the game we'd know just how much our team has matured. Well, they have. They played a superb game - their best ever.
**- Dan Henry
Romulus coach**

led to Romulus demise.

With four minutes remaining, Adrian edged into the lead, 13-10. Then, Romulus put into motion a drive that reached a climatic end with quarterback Bob Bergeron's 26-yard TD pass to Chris

Evans, who made an unbelievable catch for the touchdown.

That drive covered 70-yards and when sure-footed Jon Devereaux kicked the point-after, the Eagles were in control, 17-14.

Adrian had 58 seconds to make a move and, with the unexpected aid of a Romulus mental error, it did.

On the ensuing kickoff, the officials detected 12 Romulus players on the gridiron and, after assessing a penalty, forced Devereaux to kick again.

Devereaux's second kick appeared to deflect off of an Adrian player, the ball bounced out of bounds inside the Adrian 20.

However, the officials ruled that the ball didn't touch the player, forcing Romulus back another five yards and to kick over again. Adrian got possession this time near midfield.

The undefeated host managed to put together a drive that ended with the decisive touchdown.

"If they have had to go the 70 yards, I don't think they would have made it," said Henry. "That second penalty really killed us."

Adrian drew first-blood. They scored in the first quarter with the help of a Romulus turnover. The Eagles came back and got on the scoreboard in the second period when Devereaux kicked a 34-yard field goal. Evans' inter-

Wayne survives 'the boot'

By TOM MOORADIAN
ANP Staff Writer

With Jim DeLong in the line up, Wyandotte has a phenomenal kicker who can put points on the scoreboard whenever the Bruins get inside the 50-yard line of any opponent.

And Wayne Memorial learned this fact Friday night. Fortunately for coach Chuck Howton and his Zebras, they came up with enough touchdowns to offset DeLong's individual efforts to win a key 22-15 Wolverine 'A' Conference game.

"I think he (DeLong) is one of the best - if not the best-high school kickers in the state this year," Howton offered after the second conference win in three starts. "He sure made us sweat."

Soaring off the starting blocks, western Wayne swimmers posted three meet records - the 200-freestyle, 100-backstroke and 100-breaststroke during the 1992 championships staged at Wayne Memorial High School. Wyandotte surfaced as the meet champ. ANP photo by Larry DiVizio

Maniez wins diving crown

By TOM MOORADIAN
ANP Staff Writer

Robichaud rolls past Oak Park

By TOM MOORADIAN

The anticipated showdown between defending champ Robichaud and Oak Park fizzled as the champs knocked out their hosts, 32-7, in the "first round" en route to their third straight victory in the Suburban Athletic Conference.

"
We played with intensity and kept our mental mistakes to a minimum.
**- Bob Yauck
coach**

Robichaud exploded for two touchdowns in the opening quarter thanks to fullback Gerald Rice's 1-yard plunge and quarterback Tom Massey's 27-yard strike to tailback Michael Orsette.

The champs went on to score one TD in each of the final three quarters.

"We played with intensity and kept our mental mistakes to a minimum," said Robichaud coach Bob Yauck. "It was a good overall effort, an excellent effort on the defense by our team."

Robichaud will return home Friday afternoon to take on River Rouge, a team that boasts one of the finest receivers in the state in All-State candidate, Benny Bedford Jr. With Bedford in the lineup, Robichaud secondary "definitely will be tested," assured Yauck.

"If we can't stop him, we're in trouble."

Robichaud had no trouble with Oak Park. Massey engineered a first-series, 70-yard drive with a handoff to Rice at the one where the rugged fullback bullied his way across the goal line.

The Bulldogs opted for the

Belleville is back on winning track

By TOM MOORADIAN
ANP Staff Writer

With a stunning 27-18 comeback behind victory over Lincoln Park behind them, Belleville and coach Bob LaPointe will turn their attention to title-favorite Dearborn Fordson.

Fordson, a perennial Class A state powerhouse, will host the 1 p.m. Saturday Wolverine 'A' Conference game. LaPointe isn't down-playing the importance of the game.

"We're going to play a typical Fordson team that thrives on defense and has an excellent quarterback who makes things happen," LaPointe said. "Fordson has been the class of

the league for many years, and we're going to have to come to play or they will blow us away."

LaPointe was "impressed" by his Tigers Friday night "because, we were down twice and didn't quit. In the past, I've been told, that our teams have quit. Not this time. They continued to play with confidence."

Belleville spotted L.P. an early first-quarter touchdown, but came right back to even the score, 6-6, as quarterback Ralph Truitt engineered a 73-yard drive that culminated with Darryl Montie's end-around touchdown.

Undefeated Glenn meets upset-minded Salem

Rockets coast to 4th victory

By TOM MOORADIAN
ANP Staff Writer

Unbeaten and still untested Westland John Glenn now finds Plymouth-Salem standing in the path to a divisional football title.

And Glenn coach Chuck Gordon realizes that to stay on top of the Western Lakes Division his Rockets must find a way to get past Plymouth-Salem. Salem is host for the Friday night encounter between the two divisional powers.

"We have great respect for Plymouth-Salem," said Gordon. "They are well-coached, and you can forget their record (2-2). They are much better than that record reflects. And Salem will definitely be the best team we will meet to date."

The respect is mutual.

At the beginning of the season, Salem coach Tom Moshimer predicted that the Westlanders were going to be in the thick of the title race. His opinion hasn't changed.

"Before the season even started, I felt that they (Glenn) were the team to beat," said Moshimer. "My opinion hasn't changed. This Glenn team has a lot of talent, and they are always well-coached."

Glenn had a field day against Livonia Stevenson. The Rockets blasted Stevenson right after the opening

kickoff as quarterback Brian Morrison got the Rockets on the scoreboard with a 14-yard pass to Brian Besco with less than three minutes into the quarter.

Doug Hammond then came up with his first of seven successful point-after which made it 7-0 Glenn.

Then, after an exchange of punts, Morrison put together a drive that ended with Joe Padout for a 27-yard TD pass that lifted the Bulldogs to a 12-0-dock's 20-yard touchdown run.

Paddock came back in the second quarter for his second of three touchdowns for the afternoon. The speedy running back capped a sustained drive with a 2-yard up-the-middle TD.

Morrison figured in the next two Glenn touchdowns. The elusive Rocket quarterback scored from 3-yards out then,

after a Stevenson turnover, Morrison hooked up with Derek Besco on a 25-yard TD pass.

At halftime, the Westlanders enjoyed an incredible 35-0 lead. And the five TD cushion, Gordon was able to substitute indiscriminately during the final two quarters.

Paddock's 5-yard TD run and Matt Howton's three-yarder accounted for Glenn's two third-quarter touchdowns.

Morrison finished the game with five of six pass completions and two TDs for 86 yards. He also ran for one touchdown.

Paddock, with 21 carries to his credit, racked up a season-high 189 yards and three touchdowns.

The Rockets managed to shut down Stevenson's offense with the efforts of nose guard Rod Adams, linebackers Joe Kalep and Jeromey Cosby.

Turnovers continue to hurt Rocks

By TOM MOORADIAN
ANP Staff Writer

Turnovers continue to plague Plymouth-Salem as coach Tom Moshimer's Rocks fell 21-0 to defending Western Lakes Division champs, North Farmington. The loss left Salem with a 2-2 overall record.

Disappointing is how Moshimer described his team's performance.

"We made four big mistakes and North capitalized on them," said Moshimer, who has the dubious honor of sending

his troops up against an undefeated, with title momentum, Westland John Glenn Friday night.

Salem will play hosts to their divisional rivals.

One of the Rocks' fatal mistakes at North occurred midway in the first quarter when North blocked a Salem punt and the champs took possession deep in Rock territory. North scored in that series, which Moshimer believes was the turning point.

"That (turnover) really shook us. We did not look the same the rest of the game. In fact, we looked horrible the second half."

Moshimer commended the play on defense of Andy Szydlowski, the Rocks' outside linebacker.

"If there was any bright spot in this game it was Andy's performance," the Rock coach stressed.

Champs

Continued from page B-1

two-point conversion and they fell short.

The Bulldog defense, sparked by linebackers Ivory Burks, Rice and Orsette, kept the game in the Oak Park quadrant most of the afternoon. In fact, the Parkers had an embarrassing minus 2-yards total yards.

Orsette came through with another one of his superb returns in the third quarter when he stole an Oak Park pass and ran it back 85 yards into the end zone. Remember, it was Orsette who returned the season opening kickoff for a touchdown.

Track

Continued from page B-1

Curtis Lunsford missed a chance to give the Tigers a lead when his conversion attempt failed.

However, Railsplitters struck right back. They broke the stalemate and went ahead, 12-6, before a Truitt to Al Barnett 6-yard touchdown pass tied the score for the second time. Truitt's pass finished off a 40-yard drive. And this time, Lunsford's kick was good.

Belleville sealed away the victory with a pair of fourth-quarter scores. Not before the Railsplitters put pressure on the Tiger defense. They drove deep inside Tiger territory but Curtis Balogh erased the threat when he pounced on a loose ball at the Tiger four-yard line.

Belleville came back and marched the distance of the field with running back Marty Sacco going in from 3 yards out.

"That drive was methodically," said LaPointe. "It was one of, if not the best tou-

Wayne

Continued from page B-1

to take that lead into the locker room.

Unfortunately, Wyandotte and DeLong had other plans. They came back with a superb 42-yard DeLong field goal that brought the crowds to their feet for a standing ovation.

Then, in the third quarter, DeLong continued to kick it up. He booted a 22-yarder to close the gap, 14-9.

The Bruins took the lead for the first time early in the fourth quarter as Corey Coogan scored from the one after the Wayne defense denied them the TD on three previous plays.

Midway in the final quarter, the momentum reverted back to Wayne. Vernon McClendon provided the spark that caught fire. He burned the Wyandotte QB on an option play, nailing him for a huge loss. On a subsequent play, Calhoun put the crunch on a Wyandotte ball-carrier that jarred the ball loose for teammate Tapp who recovered the ball at midfield.

Wayne came back in the next series to score with Calhoun's sparkling 39-yarder that lifted the Zebras to a 20-15 lead.

Forrest continued to provide the heroics on defense and kept the pressure on the QB. On a fourth and 35 situation, Wyandotte went to the air and completed a pass that was 5 yards short of a first down.

Wayne wore down the clock to 12 seconds and Wyandotte got one more chance. But Mate's interception ended the threat.

"It was a great victory for us," said Howton, who next challenges is Lincoln Park, which apparently is having problems. The Railsplitters have dropped their last two games.

Calhoun had an exceptional night against Wyandotte. He rushed for 176 yards, scored two TDs in 20 attempts, while teammate John Ballard picked up 90 yards on nine attempts. Mate, on target when it counted, completed six of 14 passes for 119 yards.

Forrest, defensive ends Tony McGill and McClendon, and guard Ballard turned in outstanding performances on defense.

"We're in the thick of this race," Howton said. "And no one is counting our kids out."

Then, in the fourth quarter, with Bob Kelly replacing Rice at fullback, Robichaud struck for a final TD. After another bad Oak Park punt that gave the visitors excellent field position, Kelly scored from 11-yards out.

Orsette accounted for 101 of the 205 yards rushing. His two TDs brought his total to five touchdowns on the season. Rice had nine carries for 47 yards and one score.

Massey went to the air waves with 15 of his passes and found receivers on seven occasions for 113 yards. However, he did have two intercepted.

Joining Burks, Rice and Orsette for accolades on defense are Andre Johnson and Leslie Thomas, who stood out in the secondary.

chdown drives we put on this season."

With the Tigers up 20-12, L.P. gambled in what proved to be their final possession. They threw a fourth-down pass that Josh Speller intercepted and returned 55 yards for a touchdown.

Lunsford then put his foot into his third point-after.

The victory boosted the Belleville overall record to 3-1 on the season. The Tigers are 2-1 in the conference and share second place with Wayne and Monroe. Fordson has a spotless 3-0 record in the conference, however, the Tractors dropped their non-league opener and are 3-1 for the year.

David vs. Goliath

Spirited Inkster, strong Highland Park clash

By TOM MOORADIAN
ANP Staff Writer

It's one of those *David and Goliath* stories, and Inkster coach Vic Calhoun is betting on *David*.

Small but spirited Inkster will clash with unbeaten Highland Park on Friday in a Suburban Athletic Conference game, and Calhoun believes that his gridders stand a chance to cut down the bigger and stronger Parkers.

"They're well-coached and have a lot of speed," said Calhoun. "If we can stop their running game, we stand a chance of winning."

Miracles do happen. After all, didn't David slay Goliath?

But there were no miracles for Calhoun or Inkster Friday night at Jackson Lumen Christi. Jackson scored two touchdowns in the first quarter and went on to win a 27-8 non-conference battle.

Inkster came back after the half and scored a third-quarter touchdown when quarterback Robert Gatewood flipped a dart to flanker Ed Brown, who grabbed the 5-yard pass and didn't stop until he raced past three would-be Jackson defenders, hurdled a fourth, on the way to a 72-yard touchdown run.

"It was a beauty of a run," said Calhoun.

Fred Davis accounted for the two-point conversion.

Gatewood completed seven of his 13 passes for 166 yards, but two ended in interceptions. Terrance Carter, with 10 carries for 92 yards, and the performances of linebackers Barry Alexander, who had 10 solos and two assists, and Ken Orr, who counted nine unassisted and two assisted tackles were other Inkster highlights.

The Vikings will enter the game Friday with a 1-3 overall and a 1-1 SAC record.

Eagles

Continued from page B-1

ception set up the score.

After a scoreless third quarter, Romulus got a big break when Charles Dudonis blocked an Adrian field goal attempt and the Eagles took over on their own 38. With 8:51 left, Brian Helka scored, lifting the Eagles to a 10-7 lead. Adrian replied with a TD from 2 yards out with 4:54 left, setting up the thrilling conclusion.

After the ensuing kickoff, Bergeron strung together a 61-yard drive that he capped with the TD pass to Evans.

Helka finished the game

with 56 yards on 15 carries and one TD, while Bergeron had a superb evening, hitting on 13 of 24 passes for 185 yards and one touchdown. Joe Kubsibab was one of Bergeron's main targets. The tight end nabbed three passes for 70 yards. Evans also finished with three catches and 69 yards and a TD.

Jeff Blanton had one catch for 22 yards that kept the Eagle scoring drive alive.

The Eagles return to the home turf Friday night and will put a 3-1 record up against a winless Holly (0-4).

"We have to put the loss to Adrian behind us," Henry said. "We have to continue to improve. Our goal has been and continues to be to reach the playoffs."

Crown

Continued from page B-1

Wayne, while Glenn made it into the winning column with Brandi Gary.

Maniez established a new invitational diving record, breaking her own mark set a year ago, on the boards. She compiled a total of 364.4 points, besting her gold-medal effort of a year ago when she was awarded 344 points.

Earlier in the week, Maniez erased a 14-year Wayne best in diving when she won the event with 227.6 points. Maniez's performance came

in a dual meet against Wyandotte. That performance topped Teri Richardson's record of 213.6 points.

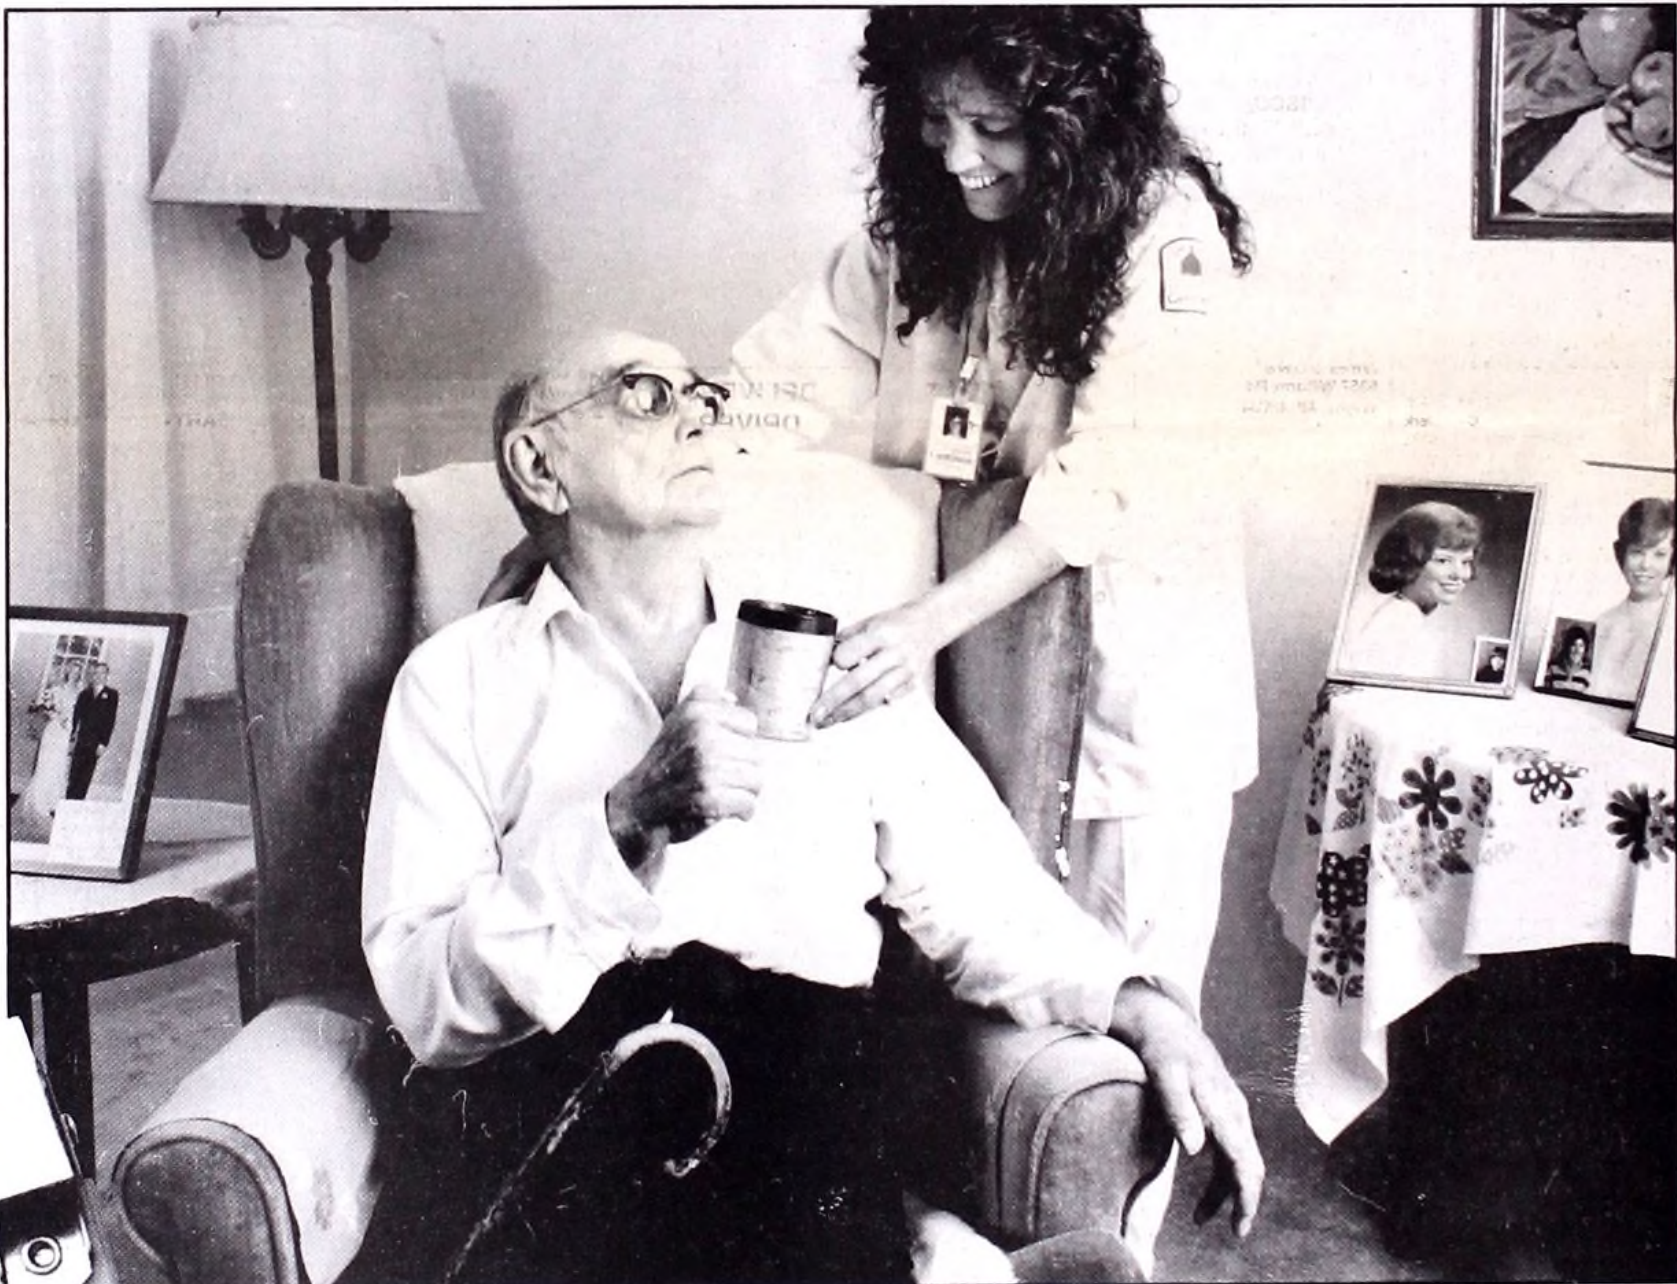

"She had an outstanding week," said Ferguson.

Knutssen, a senior who is a native of Sweden, posted the winning time of 2:09.3 for the 200-yard freestyle.

Gary of Glenn turned in a 1:06 to finish first in the 100-yard freestyle.

Trailing Wyandotte in the final team standings were Allen Park (190), John Glenn (182), Livonia Franklin (170), Wayne Memorial (161), Redford Township Thurston (159), Ypsilanti Willow Run (114), Garden City (55) and Southgate Anderson (11).

THANKS TO YOUR DONATION, CHARLIE LIVES IN A HOUSE, NOT A HOME.

Too often, when the elderly can't care for themselves anymore, they end up in a home. Well, you're helping to change that.

Your donation to the United Way helps support organizations like CareGivers, which provide in-home care and other supportive services for 12,200 elderly people in Wayne, Oakland and Macomb Counties.

The United Way supports 145 agencies. Nearly 90 cents of every dollar you contribute goes directly to work, since only 10.4 cents goes towards campaign and administrative costs. Your contributions help the disabled, the abused and the homeless, right here. For Charlie and other elderly people, please give to the United Way. And help keep them in a house, not a home.

STILL THE BEST WAY TO SHOW YOU CARE.
United Way, 1212 Griswold, Detroit, MI 48226 313-226-9200

Harrell adds 2nd dealership

Vehicle sales at Harrell Chevrolet/Oldsmobile/Geo in Flat Rock have been so strong since opening in 1983, the company has added a second dealership.

Travis Snow, general manager of Charles Harrell's operations, said the nine-year-old dealership has opened the former Dexter Chevrolet/Geo location on 20811 W. Eight Mile Road in Detroit. The Dexter purchase, Snow said, cost Harrell some \$5 million.

"Actually that was a pretty good deal," Snow said. "We're confident the move into the Detroit market is a move in the right direction."

Snow said Chevrolet/Geo sales at the five-block Harrell complex in Detroit are expected to generate an astonishing \$400-\$500,000 a month in gross revenue.

Charles Harrell is an American success story. Born and raised in a working-class Florida neighborhood, Harrell joined the General Motors Corp. after leaving an Ohio university. Associated with the Oldsmobile Division, Harrell quickly moved through company ranks ending his career as District Manager.

In 1983 Harrell opened his Chevrolet/Oldsmobile dealership in Flat Rock later adding the hugely successful Geo line.

Snow said Harrell decided to expand into Detroit because he wanted to give back to the community.

"I think there is a perception by Detroit residents that they are not treated as well as suburban buyers," Snow said. "We are going to change that mentality. Chuck Harrell wants Detroit residents, and all car buyers to know, that they can still buy in the city and get a better deal. We're very excited about our Detroit dealership."

Harrell sales representative Ken Hall hands the keys to a newly-purchased Blazer to excited buyers Duane Ratliff and Sue Gyulueszi. ANP photo by Larry Divizio

Local auto auction bids for favor of used-car buyers

Customers examine one of the vehicles to be offered for sale at the regular Thursday auction of used cars at Auto Auction on Michigan Avenue in Wayne. ANP photo by Larry Divizio

By MARGO DEWEY
ANP Feature Editor

Looking for the best deal in town?

Frank Carmisino, owner of the Auto Auction in Wayne, 33640 Michigan Ave., has a handful of hot deals on used cars, trucks and vans for the community. Every Thursday at 6 p.m. Carmisino provides a selling and buying opportunity for area residents, according to office manager Theresa Snider.

"We have between 60 to 70 cars on sale," Snider said. "A \$300 cash deposit holds the car until Tuesday."

Anyone interested in buying a vehicle will save 30 to 40 percent off a car dealer's price tag, according to Carmisino.

Auto Auction officials also provide detail work, buffing and polishing.

Walk-ins are welcomed, however, residents can also

make an appointment with one of the experts at Auto Auction who will offer a consultation on the vehicles.

All makes and models are available. Cost for residents interested in entering their vehicle into the auction is \$15. If

the car, truck or van is sold, cost is \$40, according to Snider.

"Anything customers buy at the Auto Auction, the fee is \$35," Snider said.

For more information call 326-6400.

Buckle up Statistics prove value

Do safety belts really work? This is the question that many have been asking for years. What's the answer? Yes, safety belts do work. There's just one catch—you have to wear them.

The odds are in favor of safety belts, reported the department of state police recently. Numerous crash tests have shown that belts, when worn, can double chances of

survival in a crash. They also significantly reduce injuries. Now, aren't those great odds.

Always remember to wear a safety belt, because you can never predict when a crash will occur. Safety belts save thousands of lives every year. One of those lives may be your own or someone you love. Go with the odds, buckle up.

Life looks good Libras

ARIES (March 21-April 19)-This is a month for romance. Avoid procrastination and indecision in this part of your current lifestyle. Go for it. Mars squaring your sun sign will mean changes in your residence. So go with the flow. Don't worry. Be happy. Lucky numbers are 0, 2 and 2.

TAURUS (April 20-May 20)-Your work continues to be in balance. You will hear of a wedding before the end of the month. What has been hidden in the subconscious now surfaces. You have many innovative ideas now. Be more decisive. Lucky numbers are 8, 1 and 3.

GEMINI (May 21-June 20)-After Oct. 15 you will be getting into a significant romance cycle that will last for a 1 1/2 years. If single, you could marry by this point in time next year. If married, there could be a pregnancy or a closer relationship with your mate. Lucky numbers are 6, 2 and 2.

CANCER (June 21-July 22)-Jupiter entering your 4th house will show changes within your home. Problems could arise with home and family matters. Avoid jealousy and manipulation. The full moon on the 11th could cause problems if you do. Better opportunities in your career. Lucky numbers are 8, 1 and 5.

LEO (July 23-Aug. 22)-When Saturn becomes direct on the 16th you may make a sudden

October Horoscopes by Elizabeth

decision regarding commitment in the department of romance. You will not be bored. Things now lighten up around you. There is a peaceful ambience. Hug an Aries. Lucky numbers are 3, 2 and 3.

VIRGO (Aug. 23-Sept. 22)-Finances are on the upswing. Lucky you. Romance appears intense and passionate. Beware of those trying to play mind games with you. You will understand by mid-month. There will be increased activity around you. Fortunately your health is better. Lucky numbers are 8, 2 and 6.

LIBRA (Sept. 23-Oct. 22)-Starting the 11th Jupiter goes into the sign of Libra. For you Librans this means a year and a half of opportunities and expansions in all aspects of your life. Love, money, career and possibly waistlines. Lucky numbers are 9, 1 and 4.

SCORPIO (Oct. 23-Nov. 21)-Things could be more intense around the home close to the full moon on the 11th. Keep your ears open and your mouth shut. Someone of the past will re-enter your life. This is an opportune month for new projects and your career. Lucky numbers 1, 1 and 8.

SAGITTARIUS (Nov. 22-Dec.

21)-After the 15th those clogged lines of communication will open easily. Saturn goes direct on the 16th helping to ease restrictions around communications and your environment. You will be rewarded with the good that you have done, you'll understand. Lucky numbers are 1, 2 and 7.

CAPRICORN (Dec. 22-Jan. 19)-Jupiter enters your 10th house of career opportunity. You may receive a better position, recognition, a raise or an upswing in your public image. Romance could be powerful and dramatic. Lucky numbers are 9, 3 and 6.

AQUARIUS (Jan. 20-Feb. 18)-Career and public image are strongly accented. Positive or negative, the choice is yours. Emotional fulfillment is available through work. Keep your eyes open. This is a great educational month for you. So do it now. Lucky numbers are 2, 1 and 4.

PISCES (Feb. 19-March 20)-This month indicates optimism. Abundance and expansion. What you did not receive in September, you will receive this month. Smile. Romance appears intense and even exotic. A new home base will provide happiness for you and your loved ones. Lucky numbers are 0, 3 and 3.

Psychic/astrologer Elizabeth is available for private readings, phone readings, group parties, banquets and benefits. Master Card and Visa are accepted. For further information call The Psychic Connection at 960-1810.

Latch-key program now open

From a small pilot program in the Wayne-Westland YMCA, the Latch-Key program has grown to accommodate 300 children before and after school in 10 sites.

"One of the biggest needs today is child care," said YMCA Program Director Mary Rose Cartwright. "With the large number of households with two working parents it is a necessity to provide care for children before and after the regular school hours."

Cartwright noted that supervision is important for older youngsters as well as small children.

"When children are left unsupervised for long periods of time, there is an opportunity for them to experiment - try things they normally wouldn't do when their parents are present," Cartwright said.

The YMCA has Latch-Key sites at Elliott, Hamilton, Schweitzer, Wildwood, Stottemeyer, Kettering,

Patchin and Monroe elementary schools and in St. John's Lutheran School for children in the first through sixth grades.

Parents can drop their children off as early as 7 a.m. and pick them up as late as 6:30 p.m.

Registration can be made by calling 721-7044, or visiting the YMCA at 827 S. Wayne Road, Westland, south of Cherry Hill.

Buying a Used Car Can be Risky.

Blackwell Ford can help minimize the risk you take when purchasing a used vehicle. Every used vehicle sold by Blackwell Ford undergoes extensive reconditioning and safety inspection before it is offered for sale. If the vehicle does not meet our high standards, it will never be displayed on our lot. In the unlikely event that something does go wrong with your vehicle during the first 30 days or 2,000 miles, whichever occurs first, we will stand behind it 100% and repair it free of charge. It's that simple. We offer new car peace of mind with your used vehicle purchase. Stop in today to see our large selection of quality used vehicles, all priced to sell. And please remember...

"If You Don't Know Used Cars, Know Your Dealer."
